

WOODEN SUN
MIAMI

We are an emerging brand born in Miami, a marriage where she is a lifestyle blogger publicist, he is a systems engineer, both are Venezuelan and they achieved the balance and passion to have a brand that fused fashion and good vibes: that's how Woodensun was born. .

We are also a brand with a purpose, more than 80% of our products are ecological with the planet, with wood and biodegradable vegetable acetate being our main materials and also in association with ONE TREE PLANTED, every year for each lens we sell. we plant a tree and thus together we help to have a better world.
