

e BEACH WAGON

ELECTRIC BEACH WAGON

ELECTRIC MOTOR

Self-propelled motorized 2'x4' wagon. Travels up to 6 mph. The 24 volt motor is powered by two 12 volt, 22 amp hour sealed lead acid batteries. Easily recharges by plugging into a wall outlet.

MULTI-TERRAIN TIRES

The low pressure balloon tires are made from polyurethane – a soft, durable material that conforms to almost any terrain. Works excellent on sand, mud, turf, asphalt, concrete, gravel, and more.

UMBRELLA HOLDER

Each corner has two aluminum tubes built into the frame. Park the wagon, remove the railings and use the tubes to hold your umbrella, flagpole, or fishing rods.

USB CHARGER

Two USB ports are located on the control panel, making it possible for two electronic devices to charge at the same time. This accessory is weatherproof and comes equipped with a protective cover.

REMOVABLE RAILINGS

Remove the railings to simplify loading and unloading gear, to use as a table, dolly cart, utility cart, or a seated bench.

HOLDS 300+ LBS

Built to do all of the heavy lifting and pulling. All you have to do is hold onto the hand grip, hit the throttle, and walk in front of it towards your perfect location.
