Compack Rack

The Compack Rack is a portable, stackable and u-lock compatible rack with an 8 bike capacity. The Compack Rack is well suited for children's bikes at parks and schools. When the Compack Racks are not in use, they stack atop each other for easy storage on a standard pallet.

Compack Rack

Stack 'Em Up

When not in use, the Compack Rack may be stored efficiently on a standard sized pallet.

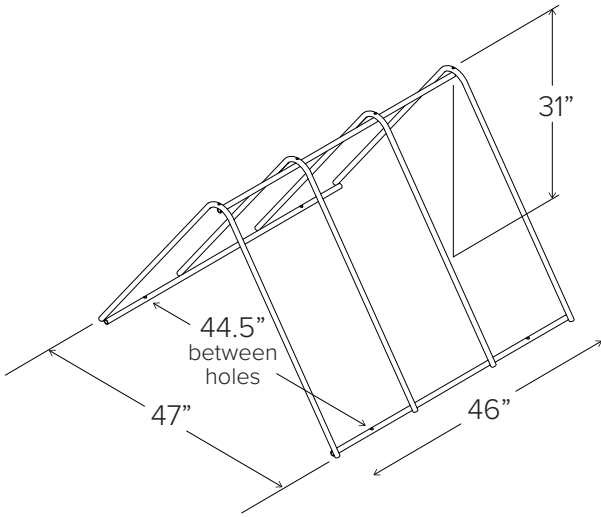

U-Lock Compatible

Unlike most other short-term parking racks, like the dreaded wheel-bender, the Compack Rack is u-lock compatible.

FINISH OPTIONS

Galvanized

CAPACITY 8 Bikes

MATERIALS .75" steel tube

FINISHES **Galvanized**
An after fabrication hot dipped galvanized finish is our standard option.

MOUNT OPTIONS The Compack Rack is a freestanding unit that may also be bolted to the ground with 3/8" anchors for added security.
