Silver Xtreme Bluetooth Music Controller
## LED-BLU-MSC-ST-CONT

LED Chord is an APP designed for full color LED controller as a remote controller via Bluetooth.
It provides LED music effects for pixel LED users, it has never been so easy to set up a compact LED light show.·

App Download and Install:
● Both IOS and Android OS versions are available.
● Requires IOS Version 10.0 or later, Android OS version 4.4 or later. ● Scan QR Code to download app or search LED Chord in App Store or Google Play
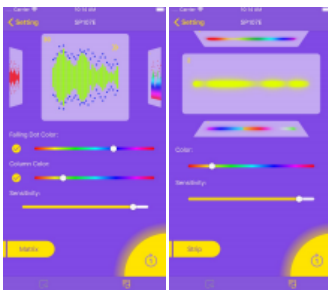

How to Set it Up:
● Make sure the bluetooth feature is turned on > Pull- to-refresh device list > Select user device.
● Settings for RGB order and led driver IC type.
GRB SM16703 for most Gorilla Whips LED Products.

Rename Device:
● Long press the connected device to change the device's name.

LED Music Mode:
● View in Strip Mode to adjust color and sensitivity.
● View in Matrix Mode- Dropping dots and pillar colors are adjustable and can be removed by unchecking the color bar.
● Enter or exit automatic loop by clicking icon in the lower right corner.

Solid vs Auto Color Selection
● 7 Solid color direct press options, adjust brightness, speed, and sensitivity..
● View in Matrix Mode- Dropping dots and pillar colors are adjustable and can be removed by unchecking the color bar.

Effects and Favorites
● Press right/ left arrows to select effect (180 in total)
● Click a # to mark a favorite effect
● Long press # to see all of your favorite effects by tapping the right/ left arrow. Untapping the heart icon will remove from favorite effects. Tap empty area to exit.

Troubleshooting Tips:
- Power to the controller is connected to the busbar or key on power?
- Check your internet connection
- Do you have Bluetooth enabled on your phone?
- 1 phone can be connected to the device at a time. Are you connected to your device?
- Check fuses to busbar
- Connect through the LED Chord App, not through phone
- Disconnect power and reconnect
- Drag to refresh device list, choose SP107e
- Check for App updates, restart phone after update
- Uninstall LED Chord App, then Reinstall LED Chord App
- Check for phone updates, restart phone after update
