

Woodoc Colours Specification Sheet

Typical Application:

For interior and exterior use. A range of translucent colours that allow the natural grain of the wood to shine through, without compromising the sealing and protective quality of Woodoc sealers. To tint clear Woodoc sealers and perfect for all decorating needs, both indoor and outdoor.

Product Features:

- There are 20 tints - from traditional to modern – in the Woodoc Colours range.
- Will transform any woodwork – from garden furniture to kitchen cupboards.
- The addition of Woodoc Colours to clear Woodoc Exterior Sealers enhance their UV-resistance.
- Complete how-to-use instructions on label.

Application Note:

Because the natural colour and absorbency of woods differ, the appearance of Woodoc Colours can differ on application. It is recommended that a trial application on a similar piece of timber be carried out first. Three coats should be applied for the desired result. If the resultant colour is too light, more tint can be added. If too dark, just add more clear Woodoc Sealer. Either way your colours turn out exactly the way you choose! If however, the desired colour is achieved after one or two coats, clear Woodoc sealer should be used to finish the job.

No: WDcolour/002/EU

Dated: 23/11/11
