WE MAKE INDIVIDUAL PRODUCTS FROM METAL:

- Frames for tables;
- Frames for chairs;
- Legs;
- Handles;
- Rack systems;
- Shelves;
- Frames for mirrors;
- Interior partitions;
- Stands for flowerpots;
- Decorative elements.

In production work professional craftsmen with extensive experience. We propose individual solutions, completing the order with accessories, designing products to order.

LIGHTING EQUIPMENT WORKSHOP

LED STRIPS ARE NOW ONE OF THE MOST POPULAR SOLUTIONS FOR INTERIOR LIGHTING AND ITS INDIVIDUAL ELEMENTS.

Built-in lighting makes cabinet furniture more functional and emphasizes the individuality of the interior.

We offer different types of LED lighting. They save electricity and don't heat up, so they are suitable for use in tight spaces. Some types of lighting can be controlled even with a remote control or application.

ADVANTAGES:

- Reliable installation;
- Time saving;
- We assemble ready-made kits at the request of the client;
- A minimum set of tools is required for installation.

05

SLIDING SYSTEMS WORKSHOP

Total area: **600 M²**

Production facilities: **250-300 DOORS PER DAY**

Built-in lighting makes cabinet furniture more functional and emphasizes the individuality of the interior.

We offer different types of LED lighting. They save electricity and don't heat up, so they are suitable for use in tight spaces. Some types of lighting can be controlled even with a remote control or application.

OUR SERVICES:

- Preparation of profiles: cutting, polishing, drilling;
- Assembly of sliding systems;
- Finishing and cutting of filling: glass, mirror, chipboard, Lacobel.

07

QUALITY CONTROL DEPARTMENT

- Serviceability of equipment is checked on daily basis (6 times per each work shift) by using a test detail by performer himself and Technical Control department.
- The service center of complaints operatively reacts and corrects complaints at a production stage and accepts complaints from the customers.
- The service of mechanics with a staff of 27 persons works on production.

EXPERIMENTAL LABORATORY

08

THE PLACE WHERE THE MOST INTERESTING THINGS HAPPEN.

Here we independently check the quality of furniture components in accordance with international testing standards. We always test new materials and fittings that appear in the range. Only then they go on sale.

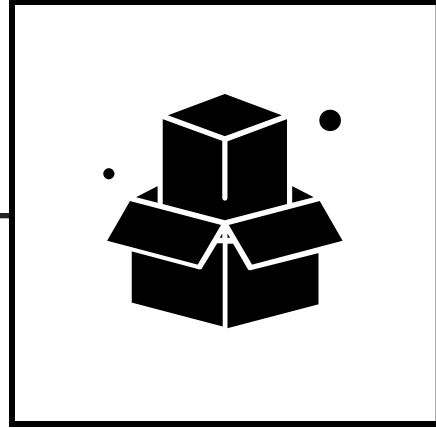

In particular, the experimental laboratory is equipped with the following stands for testing fittings:

- Stands for furniture hinges and sliding door systems (correctness of work, number of cycles of opening-closing);
- «Salt fog» chamber (checking metal fittings for corrosion resistance);
- Stand for pull-out mechanisms (correctness of work, allowable load).

The quality of board materials, countertops and facades is also carefully checked. We are confident that we offer our customers the best products.

WE OFFER

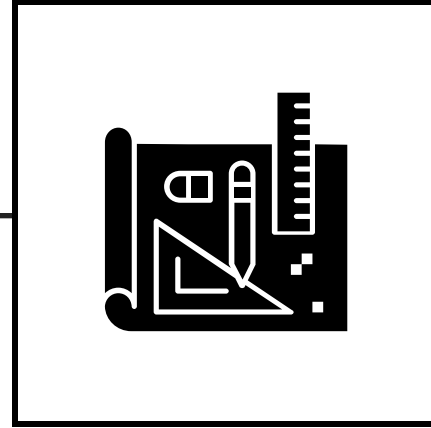

MODULAR FURNITURE

- Modular furniture as an option for quick furnishing of facilities.
- We have our own series of modular furniture for all rooms: kitchen, bedroom, living room, children's room, bathroom, etc.
- We can implement a new modular project at your request.
