This catalog was developed in order to show the production possibilities and areas of application of metal products. This is the initial version. The next versions will expand the idea of what can be done, and also apply it in your interior in real time thanks to 3D models. We will add beds, bedside tables, shelves and more. The wait will be worth it.

Instructions for viewing the model in AR:

1. Scan the QR code.
2. Click on the opened model and select the “AR” mode in the bottom right corner.
3. Move the camera to a free place in the room.
4. Move the model by moving your finger on the screen.
5. To zoom in or out on the model, spread two fingers apart or together.
