

Technical Data Sheet for Fiberglass Warehouse Fabrics

According to ISO 11014:2010

Date: 6 Mar-2024

Section 1: Description

Fiberglass Warehouse Fabric reinforcements are designed to provide desired properties such as strength, resilience, flexibility, light weight and resistance to weather, heat, fire and corrosion. Available in a variety of styles weaves, roll widths and fabric weights, Fiberglass Warehouse glass fabrics are designed to meet high standards for a variety of Marine and Industrial applications. Stringent quality control guarantees consistent performance over a wide range of uses. Most fabrics are finished with a multi-functional silane allowing use with polyester, vinyl ester and epoxy resins. Other finishes are available on minimum 5,000 yard orders. Please contact a Fiberglass Warehouse representative for min quantities and availability.
