# SOLACE

Step 1.

Cut the measuring tool on the right out to use for sizing. Place the wide end on the top your wrist.

Step 2.

Wrap the thin end around your wrist to go over the watch face. Make sure the paper is snug and is not moving up or down.

Step 3.

Observe which section the black line falls within and you will know the size watch band suited for you. If you are on the line, we recommend you size down.

Place a credit or ID card here to confirm that the tool printed at 100%.
