# INSTALLATION INSTRUCTIONS

## METAL GARDEN ARCH TRELLIS ARBOR

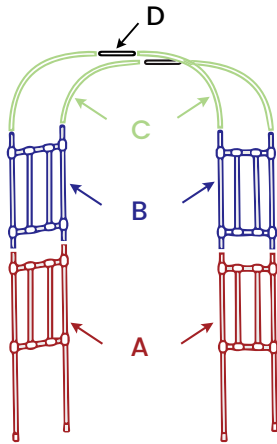

### ACCESSORIES \* Please make sure you have all the accessories before assembly

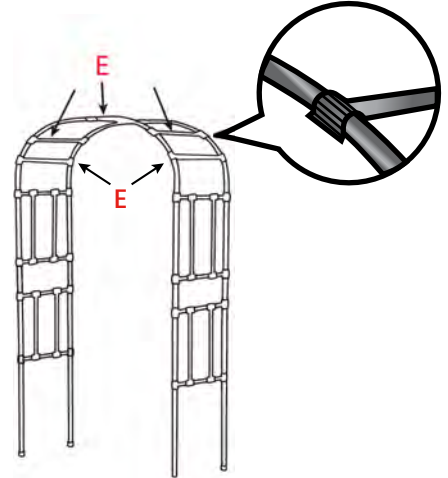

Galvanized Steel + Polyethylene Coating

### ASSEMBLY METHOD

- ① A x 2PCS  
B x 2PCS  
C x 4PCS  
D x 2PCS

- ② E x 5PCS  
Make sure the arch is balanced and assembled firmly. Then, snap on part E across the bars on top.

### USAGE

- ① Mark 4 points on the ground where you want to install the arch trellis.
- ② Use the driving stake (F) to create holes that are a minimum of 8" deep into the ground/soil
- ③ Insert the arch into the holes. Push it deep into the ground to make sure it is stable.

#### ! Notice

- \* Mark the points for installation
- \* Insert the arch trellis a minimum of 8" deep into the ground
- \* Please keep children from climbing up the arch trellis
