

## Refurbished Perfect DM101 Dual motor Upright Vacuum

The Perfect DM101 dual motor upright vacuum is a heavy duty cleaner designed for all commercial settings. This machine utilizes a high efficiency suction motor and a powerful brush roll motor to deep clean all carpets, rugs, floors and upholstery. This cleaner can also be used quietly during the day and at night because of its hi-tech fire-retardant sound-deadening gel. This unit is also extremely convenient due to a 15-inch cleaning path that cleans more area in less time than the leading competitor's commercial upright.
