

REPAIR

Skin **treatment** cream for

Psoriasis

Read this instruction leaflet carefully before using Dermalex Repair Psoriasis.

To achieve the best results please follow the instructions provided carefully.

- Keep this instruction leaflet. You may need to refer to it again during treatment. Should you require any additional information, please contact your doctor or pharmacist.
- If symptoms persist or in case of side effects that are not mentioned in this leaflet, see your healthcare professional.

Ingredients

Purified water, Alkaline earth minerals complex optimised for Psoriasis treatment, Modified Alumino-Silicates, White petrolatum, Cetearyl alcohol, Paraffinum liquidum, Polysorbatum 60, Ethyl alcohol, Methyl 4-hydroxybenzoate

What is Dermalex Repair Psoriasis and what is it used for?

- Dermalex Repair Psoriasis is suitable for people aged 14 years or older suffering from mild to moderate psoriasis symptoms. Dermalex Repair reduces the typical symptoms by normalising skin cell production and the maturation time. It accelerates the skin barrier recovery via activation of the skin's own repair mechanism and fortifies the skin barrier through the creation of a protective shield and prevention of water loss from inside to outside.
- Dermalex Repair Psoriasis cream is a dermatological product for the treatment of Psoriasis skin symptoms such as scaling, itching, red spots, hardened skin. The product comes in a cream to be applied on the body.
- Dermalex Repair Psoriasis cream can be used as a stand alone treatment, but also in combination with UVB treatment, bathing therapy and TOMESA therapy to enhance efficacy or after pharmaceutical treatments, to maintain the results obtained with these therapies.
- Dermalex Repair is recommended for patients with damaged skin caused by psoriasis symptoms and for patients aiming to keep their improved skin condition under control. Re-apply if symptoms reappear.
- Dermalex Repair Psoriasis is developed and clinically tested by dermatologists.

What you should know before applying Dermalex Repair Psoriasis

- Dermalex Repair Psoriasis cream can be applied to all skin types of persons above 14 years of age. With toddlers and small children, consult your physician, dermatologist or paediatrician. Only use this product for toddlers and small children under strict parental supervision.
- Dermalex Repair Psoriasis cream does not contain steroids (cortisone), tar or tar products, vitamin D3 analogues, vitamin A-derivates, sulphur (S) and keratolytic agents such as salicylic acids.
- In specific cases, when more than 40% of the body surface is covered with psoriasis plaque or in case of pregnancy, consult your physician or dermatologist before starting the treatment with Dermalex Repair Psoriasis cream.
- NO allergic reactions were documented during or after the clinical studies of this product.
- There is no information about the interaction of Dermalex Repair Psoriasis cream with other products.
- Dermalex Repair Psoriasis cream does not cause rebound effect. With the exception of a minor burning sensation and / or tingling feeling during the first days of usage, there are no other documented side effects. Dermalex Repair Psoriasis cream does not make the skin thinner or more sensitive to injuries and does not cause photo-allergic reactions.
- If you are using other treatment methods, in order to avoid adverse effects, consult a general practitioner or dermatologist before starting the combination treatment with Dermalex Repair.
- Dermalex Repair does not stain clothing, colour the skin, or cause depigmentation of the skin.

How to apply Dermalex Repair Psoriasis?

Always apply Dermalex Repair by following this instruction leaflet. If you have any doubt about these instructions for use, please consult your doctor or pharmacist.

Instructions for use

- Please remove the aluminium seal underneath the screw top before use.
- Carefully clean the affected skin with lukewarm water.
- Apply a thin layer of Dermalex Repair Psoriasis cream on the still damp psoriasis spots.
- Repeat this procedure 2 to 3 times a day.
- Dermalex Repair Psoriasis cream usage has no quantity limitation and can be applied for a longer period of time.
- Remark: in case of extreme dry skin or itching, use a perfume free hypoallergenic moisturiser cream to treat and sooth the skin after the application of Dermalex Repair Psoriasis cream.
- During the first couple of days of using Dermalex Repair Psoriasis cream, a minor burning sensation and / or tingling feeling on the treated spot may be felt. In order to prevent this read below "Important information".

Important information in case of a slight burning / or tingling sensation

- During the first couple of days using Dermalex Repair Psoriasis, apply the cream on a damp skin. Dilute a small quantity of the cream with lukewarm water and apply the cream on the affected skin with your fingers. There may be a minor burning sensation and / or tingling feeling on the treated skin. This is normal.
- Dermalex Repair Psoriasis cream is water soluble. Reapply the cream after washing your Psoriasis spots.
- Never scratch your itching skin! Keep your fingernails short and neat in order to avoid infection and irritation due to scratching.
- Never apply Dermalex Repair Psoriasis cream on open wounds or on wounds that are the result of a cracking skin or scratching.
- Whenever possible wear loose clothing made of natural fibres. Natural fibres absorb the perspiration, body excretions and oily lotions.
- Avoid contact with eyes and genitals. In case of contact, rinse thoroughly with lukewarm water.

- External use only.
- Do not use on open wounds.
- Keep out of the reach of children.
- Stop usage in case of long lasting irritation or allergic reactions.

How to store Dermalex Repair Psoriasis

- Store at room temperature (below 25°C). In order to guarantee its hypoallergenic qualities, Dermalex Repair Psoriasis contains the least possible preservatives and stabilisers.
- Do NOT expose the product to a heating source or direct sunlight! Use before the expiry date indicated on the carton and tube.
