

Pocket Springs Adhesive

Alphabond introduces new non-woven grades - an overnight success for pocket spring manufacturers.

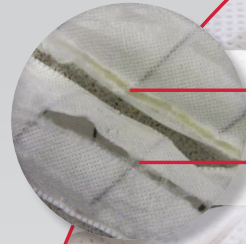

Perfect bonds no matter what the temperature, so those cold storage facilities are no longer a problem.

Fantastic New Advantages...

- ✓ Superb adhesion to pocket spring substrates in cold warehouse storage conditions
- ✓ Destructive bonds to the most difficult non-woven materials
- ✓ Coat weight reductions of up to 20-25%
- ✓ Very high performance hot melt adhesive for very tough but flexible bonds

To get a free sample bag shipped to your site call **+44 (0)845 5212057** or email **sales@alphabond.com**

- ✗ Poor bond from Competitor
- ✓ Good bond from Alphabond

Destructive bonds to non-woven material
