

Welcome to our Byron & Byron brochure

We are proud to be a British manufacturer where each and every step of the design process is completed here in London by our own skilled team of artisans.

Whilst timber is sourced from outside the U.K., the process of creating the product from concept to crafting the final piece is all done on home soil. We are aware of our social and environmental duties and are conscious of the mileage that our raw materials travel to get to us. Most of what we supply is sourced from within the EU, aside from some components that cannot be bought locally.

Our carbon footprint is rendered smaller still by producing 50% of our own electricity by means of solar panels installed on our factory roof. This reduces further our consumption of the Earth's resources. We are also working towards all timber being FSC Certified. Rest assured that here at Byron & Byron we are very aware that the planet is on loan to us for future generations. Whilst we produce products that come from natural sources, we ensure they are fully sustainable. We do our utmost to ensure we protect the environment and the world in which we live.

Thank you for your continued support and much valued custom.

ACKNOWLEDGEMENTS

Byron & Byron create and supply a variety of hand-crafted and traditionally finished curtain poles and accessories and was created in 1984 to supply a demand of the rapidly growing interior design sector of 1980's Britain.

The company was founded by a then, young Italian Orazio Gualtieri, his passion for traditional craftsmanship and design pushed Byron & Byron to stand out against the crowd. The decade of energy and opportunity in 1980's London allowed the youthful entrepreneur to marry his knowledge of design and traditional wood finishing techniques to produce a small range of classically decorative curtain poles and accessories.

Our ideology of Byron & Byron has been fundamental from the start; to have control over the whole process of the design. From conception, to prototypes, to the final manufacturing of each component. The luxury of having an on-site workshop allowed Orazio to be experimental and creative with finishes, responding quickly to growing trends and fast paced changes in colour and design.

The ability to immediately tackle problems and develop innovative ideas over the years is unique to Byron & Byron. The cutting edge design of our wooden bay poles and decorative polmets are prime examples of this and we strive to lead the market with our attention to detail and continued focus on the design.

Over 40 years later and Byron & Byron are still producing curtain poles, finials and accessories. With growing demand, production has become increasingly sophisticated but the focus still has a high reliance on the skill and attention of a talented team of gilders and craftsmen. With successful designs now the product of experience and expertise, we have grown from a small Islington workshop to a production plant in North London.

However, our core values remain unchanged, a passion for the product, a love of flamboyance and a determination to provide elegant and fitting solutions for both traditional and modern window treatments.

In this brochure, we wanted to celebrate our wonderful and valued clients. With lifestyle shots through-out this catalogue having been kindly provided by a small selection of talented designers and makers that we supply. The details of all designers who contributed can be found at the back of this brochure.

We would like to say a huge thank you to all our customers for their continued loyalty, support and shared passion for our industry.

BEHIND THE BRAND

With over 40 years experience in design and manufacture, Orazio retains the passion for producing products from wood. His love for working with timber has led him to create and continue to create innovative and beautiful pieces. The love of his creations is the magic behind every product that we design. An innovative and visionary thinker; he pushes Byron & Byron on its continued mission to produce the most beautiful products for the home, with a firm focus on functionality and technical solutions.

BY BYRON AND BYRON

An innovative and unique collection inspired by the organic aging process of wood. Six finials are available in the collection in 8 natural finishes. For a rustic edge, we have designed Saltash, which is bound by rope for an earthy effect. Each piece is hand-crafted, finely finished by experienced craftsmen and produced using the finest timbers. All here in Britain.

ADDITIONAL SERVICES

Cording and tracking

We can supply any of our 45mm/55mm poles tracked and corded. Please see the cording template in the price-list. Select your choice of pulley direction and send to the sales office along with your order or quotation request.

Decoupage

We can cover our poles with the client's own fabric or wall paper. Please contact sales for information and we will advise.

Bay-poles 'Metamorph'

Our Bay poles are carefully engineered to follow the unique form of your bay window. Available in 45mm/55mm diameters, with rings only.

Nylon Strip

A nylon strip is an additional service that is fitted to the top of the pole to help your rings to glide smoothly when pulled. We recommend a nylon strip especially if your curtains are heavy or lined and interlined or if the client would prefer a quieter closure of the curtains.

RUSTICA

BY BYRON AND BYRON

A stunning collection of rustic wooden poles, in a palette of oak finishes. Inspired by English country cottages.

The traditional detailing of the poles emphasises the warm and elegant tones of the finishes, accentuating the natural grooves of the wood.

English oak is crafted from a solid oak timber with Limed Oak, Burnt Oak, Toasted Oak and Smoked Oak created using ash timber with a contemporary oak finish.

Clean, sleek and bold, Halo Gloss offers a palette of 6 richly painted shades with a high gloss finish. With colour options that stetch from Bittersweet to Artichoke and neutrals that range from warm to cool, Halo Gloss offers a versatile selection of hues that can be combined with acrylic to enhance the bold, contemporary design.

Halo Gloss finishes can also be made 'Matte'.
Please speak to the sales office for sampling and more information.

Halo Washed Wood offers an organic, natural warmth and texture juxtaposed to the contemporary lines of today's design.

Using the same clean lines of the Halo Acrylic finials, the 5 Washed Wood finishes offer a unique effect when tied to the metal accents in brackets and bases. Add an acrylic pole to accentuate the contemporary aesthetic.

GUIDE TO ORDERING A CORDED POLE

You can order a corded pole from any collection of Byron (e.g. Barnwood, Rustica, Manor) as long as you choose the diameter of 45mm, 55mm or 67mm. Subject to collection diameters available as standard.

If you are ordering a corded pole, we will need to send you the installation height and cording type template. This is in line with the British and European standard BSEN13120.

Please note that we can also insert a ripple fold curtain track of 6cm or 8cm, please contact the sales office for more information: sales@byronandbyron.com

How To Order

- **1.** Establish diameter of pole (45mm, 55mm or 67mm only)
- **2.** Establish pole length
- **3.** Establish colour
- **4.** Establish the finials
- **5.** Corded or Uncorded (with gliders only). As standard we supply 10 gliders per metre, but you can of course amend this
- **6.** Track finish (Chrome, Polished Brass, Antique Brass or Satin Silver Black)
- **7.** Brackets (cup, metal or top fix)

Historically know as 'Cornice Boards', these window treatments were first designed to frame the window, disguising fixtures. Our decorative pelmets have been created not only for function, but for style too. Available in a range of styles and hand finished, this collection boasts both contemporary and classic designs.

*Contact our sales office if you need further information regarding having a track put into the cornice board.

Please note not available in: Jacobean Oak, Antique Oak, Driftwood, Vintage Cream, Medium Oak and Gold Wash. Antique Oak and Gold Wash

From 1 week	From 2 Weeks	From 3 Weeks	3 + weeks

POLMETS

Designed to get noticed a new breed of window treatments that are a cross between your typical curtain poles and pelmets. Available in larger sizes with an enhanced gliding system, they allow to hang heavy curtains. One of the main challenges of contemporary homes is that little or no wall space is allowed between the top of the window and the ceiling. Where a limited amount of space has been afforded, a polmet can offer the perfect solution, allowing for a range of window treatments, both modern and traditional.

Award Winning Design

Design Interiors
Best New Product- Contract

BAROQUE

DECORATIVE TRACKS

The Baroque Polmet offers an ornamented detail, in a selection of quite opulent finishes, on a tracking system that can accommodate panels, blinds, sheers, wave headed or even more traditional pencil pleat curtains. Being, fundamentally, a tracking system, the polmet can fit into smaller wall-spaces between window and ceiling which are so often the feature of the new build interior.

DECO

The vintage vibe has passed from clothes to interiors and mirrored furniture, which has been chic since the 30s, is the height of fashion once more. The Deco Collection of polmets comes in a silver, fumé or bronze bevelled mirror finish or in an anthracite bevelled glass finish, and is offered in a 50mm & 80mm width. To accompany this, the brackets and end caps come in polished brass, antiqued brass, chrome or black.

MILO

DECORATIVE TRACKS

Inspired by the Doric style of architecture from ancient Greece, the Milo Polmet, like the Baroque Polmet, offers an familiar, traditional, fluted profile in a narrow selection of quite opulent finishes, to a tracking system. This can be used to hang traditional pencil pleat curtains or blinds, panels or curtains with more contemporary headings.

Curtain Holdbacks

Stunning hand finished holdbacks in a range of beautiful finishes. From classic, clean cut forms to decorative and extravagant details, to provide the finishing touches to your interiors .

Bespoke Services

What else do we offer?

Cover our poles with the client's own fabric or wall paper. The poles can be used in conjunction with any of the finials offered by Byron & Byron. Please note that some paper and fabrics are not suitable for this treatment, however please contact us for further details. The colour or fabric may be subject to a slight change in texture or tone due to the protective coating that we use.

If you have a finish in mind, we will do our best to match it. All we need is British Standard,
Dulux or RAL paint reference. If we can't match it, you can provide your own paint, which must be a water based emulsion paint. Please contact the office for further information.

Insert track into our poles so that curtains can be Operated by pulley. The cording system is available for 45, 55, and 67mm diameter poles and, unless otherwise specified is supplied with a pulley mechanism as standard.

Make finials and hold-backs to your specification. In addition to the vast range of finial designs we already have available, we also offer the facility for customised wood turning and carving. We can recreate almost any shape or style as per your specification no matter how complex or detailed

Tailor brackets to your requirements. Made from wood, we can produce outstanding alternatives to our own brackets to satisfy the most discerning client.

Electric Powered Tracks

We now offer electric motorised power tracked poles. The poles are routered and inside the vessel we insert a track that is powered by electricity or battery. The choice is yours.

This allows for the curtains to be smoothly opened and closed at the touch of a button. This means the curtains are kept free from touch and therefore free from damage.

This cutting edge technology means that the fabric stays beautiful and clean for longer, and the curtains can be drawn and opened at the touch of one button. Aside from a sleek and contemporary look this is also the perfect solution for large windows with heavy drapes or curtains that are difficult to open due to the their location.

Practicalities aside this is a luxury that is now affordable.

Please contact the sales office for a quotation: Email: sales@byronandbyron.com T. 020 8344 7979

Any errors made on this form are the sole responsibility of the purchaser. We regret we offer NO REFUNDS and CANCELLED WORK WILL HAVE TO BE PAID FOR.

Important Information

Please read all the information on this form before signing it.

Please take all wall measurements at the height you wish to have the poles positioned.

All measurements should be given in millimetres.

Bay window poles are only manufactured to the diameters shown in the Byron & Byron catalogue.

Consider the diameter and suitability of your choice when choosing your curtains. Load bearing data is available on request.

When measuring your bay windows, be as accurate as you can. Use a metal tape measure and ensure you have assistance.

Remember when measuring your bays: measure twice, write down once. We cannot replace any incorrectly measured poles for bay windows.

Please complete all relevant sections of this form and fax/email back.

You can contact Byron & Byron during office hours on 020 8344 7979.

POSITION OF FINIALS

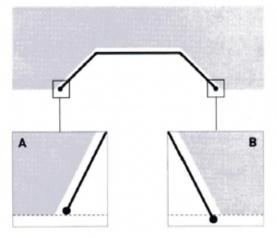

Please indicate which position you prefer.

Please tick appropriate box.

All poles are supported on brackets that extend 100mm from the wall.

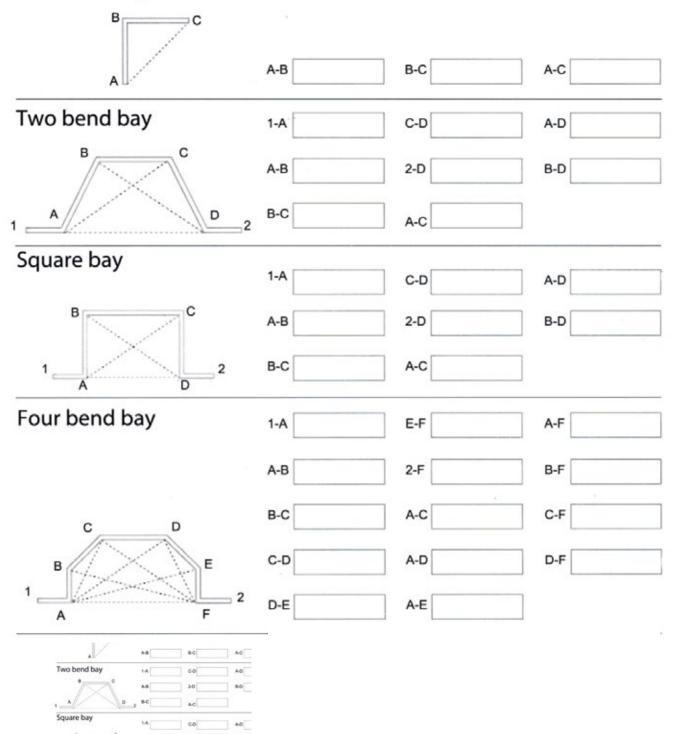

If you require a different position for your finials please indicate in the box on the left and if required make any notes below.
