

**INTRODUCING
KT LED GLOBES**

MODEL NO. KTLEDH4, KTLEDH7, KTLEDH11

Upgrade your vehicle's lighting with the cutting-edge KT Cables LED Globes, the ultimate direct halogen replacement solution. Available in H4, H7 and H8/9/11.

KEY FEATURES:

- Ultra long life, 25 times the life of standard halogen globes
- Precise LED placement with no filament to break
- Bright white light with immediate full brightness
- Aviation aluminium 6063 heat sink
- Similar size to Halogen fits most vehicles[^]
- Easy 'plug and play' fitment

[^]May not work with all vehicle's Canbus systems

The use of advanced LED technology in KT LED Headlight Globes results in a superior light output compared to original halogen globes. With reduced power consumption, these globes deliver not only a brighter but also a whiter light, enhancing your visibility and overall driving experience. The mounting bases are meticulously designed for direct replacement, ensuring a seamless transition from halogen to LED lighting.

NOT ADR APPROVED, OFFROAD USE ONLY
