HydroPress Coffee Maker

Model no: M950c

Müller
AUSTRIA

HydroPress Coffee Maker is an innovative brewing tool for coffee lovers, which has a patented mechanism that can separate coffee and grounds instantly to avoid over extraction.

The intelligent immersion brew makes controllable and rich coffee except bitterness.

Steps

1. Pull out the core chamber.
2. Put ground coffee in tumbler.
3. Pour hot (not boiling) water into the tumbler. Suggested temperature is around 80-90°C.
4. Give a gentle stir.
5. Place back the core chamber on top of the tumbler. Make sure the core chamber spout align to the tumbler spout. Let the coffee brew for around 1 to 4 mins.
6. Press down gently and steadily by one or two hands. (NEVER PRESS HARD & FAST TO AVOID BREAKAGE & SPILLS.)
7. Make sure the core chamber is pressed down to the bottom of tumbler.
8. Hold handle to pour out coffee for serving.

Suggested Recipe: recommended 15g medium coffee grounds with 225ml hot water at 80-85°C, brew for 2 minutes (coffee grounds and water ratio 1:15 for regular black coffee, while the amount of coffee grounds & water are determined by user who desired in mild or strong flavor)

Use & Care

- Do not over fill, avoid pouring hot water exceed the maximum capacity line on core chamber.
- Let the core chamber cooling enough and empty all the coffee before pulling out core chamber.
- Make sure the cover is locked with core chamber before pulling out or pressing down.
- Avoid staining, wash & dry immediately after use
- Do not use corrosive cleaning products & excessive detergent.
- Top rack dishwasher safe, keep temperature below 65/ 150
- Do not put this product in oven or microwave oven.
