SAFETY PRECAUCIONS

In the case of Emergency
Immediately switch OFF the power and remove the plug from the power socket.

When using electrical appliances, basic precautions should always be followed, including the following:

- Never plug the appliance into a suitable, easily accessible wall socket. Always switch the appliance on in the same manner as it is switched on in the usual way. In case of an emergency, plug the appliance into a suitable outlet. If the plug is not pulled out of the wall outlet, the appliance will remain powered on. If the appliance is not switched off, it can be dangerous.
- Always keep your hand away from the power cord when handling the appliance. If you have to pull the power cord, do not touch the plug with wet hands. If the plug is not pulled out of the wall socket, the appliance will remain powered on. If the appliance is not switched off, it can be dangerous.
- Always disconnect the appliance from the power socket and pull out the plug before cleaning or maintenance. Before cleaning or maintenance, plug the plug into the power socket and the appliance into the power socket.

APPLIANCE IS IN USE AND ACCORDING TO THESE INSTRUCTIONS:

- Do not switch the appliance on if the lid is not closed. If the appliance is not closed properly, the lid will not be able to prevent the appliance from burning out.
- Do not use the appliance in the presence of children. Children should not be allowed to use the appliance without adult supervision. Children should be supervised when using the appliance.
- Do not use the appliance for any purpose other than the intended use. The appliance is designed for household use only. Use of the appliance for any other purpose may result in damage to the appliance.
- Do not use the appliance if it is damaged. If the appliance is damaged, it should be repaired by a qualified technician.
- Do not use the appliance in the presence of children. Children should not be allowed to use the appliance without adult supervision.
- Do not use the appliance if it is damaged. If the appliance is damaged, it should be repaired by a qualified technician.
- Do not use the appliance in the presence of children. Children should not be allowed to use the appliance without adult supervision.
- Do not use the appliance if it is damaged. If the appliance is damaged, it should be repaired by a qualified technician.

Make sure that the appliance is switched off before cleaning or maintenance. Before cleaning or maintenance, plug the plug into the power socket and the appliance into the power socket.
