

# THE RING SIZER

## Printing

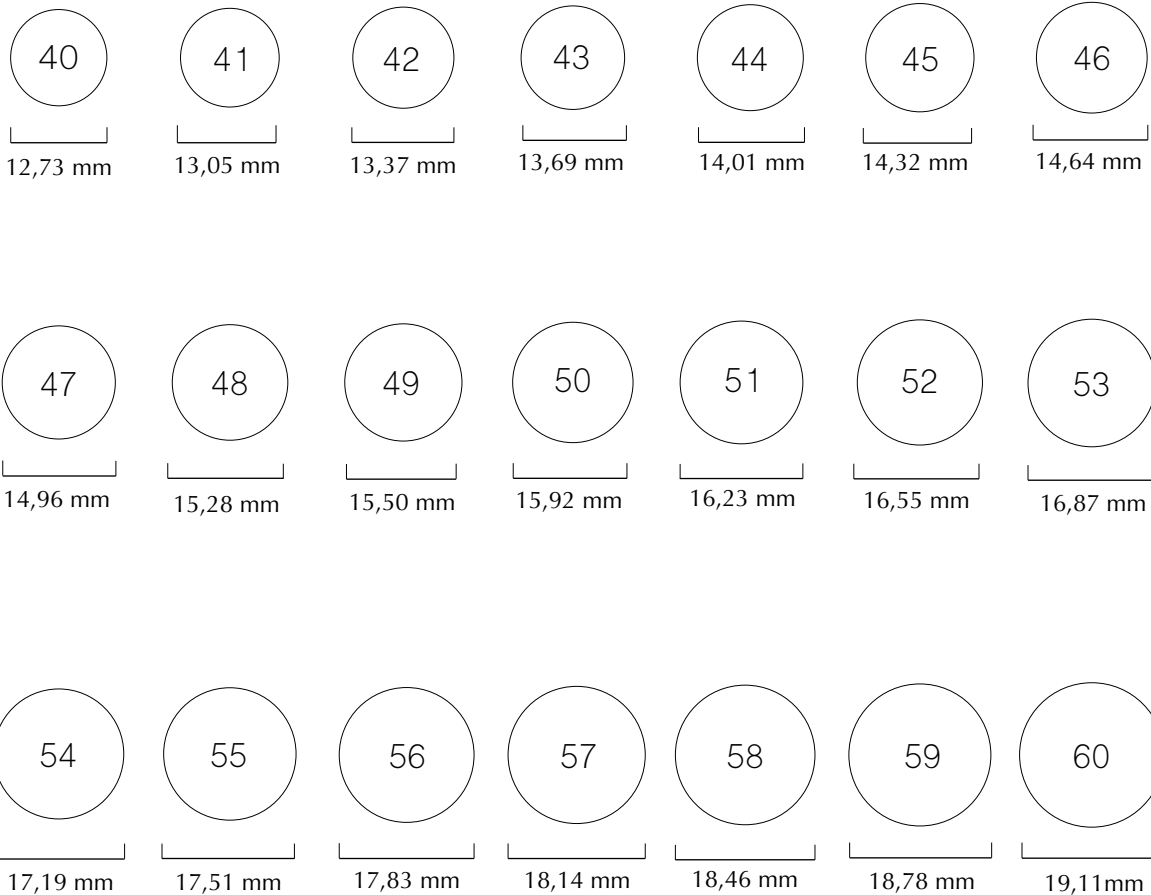

Print this sheet, ensuring the "scale to fit paper" option is unchecked. Then verify the accuracy of the ring sizer by measuring the scale with a ruler.

## Choosing the Ring

Take a ring that you usually wear on the same finger and hand where you intend to wear the new ring. Note that the size can vary between the left and right hands.

## Sizing

Place the ring on the printed circles to see which one fits your ring best. When one of the circles matches perfectly inside your ring, note the number indicated in the center. This is your ring size.

2 cm
