

PBH - Nature's Media Amendment

Product Name: PBH

Manufacturer: Riceland Foods Inc.
P.O. Box 927
Stuttgart, AR 72160

Net Weight 700 pounds (317.52 kgs.)
90 cubic feet (2.55 cubic meters)

Use PBH is used for nursery and greenhouse production as an ingredient in soilless blends. PBH is not a source of plant nutrition.

Benefits Pore Development
Drainage
Porosity
Aeration
Low dust

Analysis Parboiled Rice Hulls - Free of Viable Weed Seeds

Directions for Use: Thoroughly mix by dry blending 20% to 30% PBH with *Sphagnum* peat moss, coir, bark, or a combination of media components. The higher the PBH ratio the lighter the growing media will be and the better the container will drain. Add PBH last when mixing growing media. When replacing another component with PBH, always conduct side-by-side comparisons to **insure** desired growing media characteristics.
