 **MACRO & TRACE MINERAL NUTRIENTS**

Sea-90's exclusive mineral and trace element profile compliments and balances traditional NPK fertilizers with the important nutrients they often lack.

 **SUPERCHARGE SOIL HEALTH**

Trace elements work with organic humate to help improve microbe populations and cation exchange capacity (CEC) for healthier, more productive soil.

 **IMPROVED FARM PRODUCTIVITY**

Nature's complete nutrient tool kit helps power increased yields, improved RFV and protein values, and more flavorful, nutrient-dense plants, crops, and pastures.
