Date: 3-1-2021

1. The product hydrolyzed feather meal is U.S. origin and is intended to be used in aqua, poultry, and swine feeds, as well as pet food.
2. The product was manufactured in accordance with U.S. laws and regulations and meets the requirements of the United States for domestic sale and use in animal feed.
3. The product was subjected to a dry heat treatment at a minimum temperature of 250 degrees F for a minimum of 30 minutes to achieve commercial sterilization.
4. The product was manufactured using processing times and temperatures adequate to destroy microbiological pathogens of concern, including Salmonella, and result in a product fit for animal consumption.
5. The product was manufactured under sanitary conditions, including precautions to prevent contamination of the product with pathogenic agents following processing.
6. The product does not contain ruminant ingredients.

I am the Director of Marketing and am authorized to represent the company on all official export business. I certify that the statements listed above are true to the best of my knowledge and belief.

Signed

Name Larry Risty

Sincerely,

Mike Gasaway, President
