1. Ultra-small Series Power Module

The 5W ultra-small series module power supply is a small-volume, high-efficiency AC DC power module supply designed by Shenzhen Hi-Link Electronics Co.,Ltd. It has the advantages of global input voltage range, low temperature rise, low power consumption, high efficiency, high reliability and high safety isolation. It has been widely used in smart home, automation control, communications equipment, instrumentation and other industries.

2. Product Model

| MODEL | Size (mm) | Output watt (W) | Output voltage (V) | Output current (mA) | Notes |
|----------|-----------|-----------------|--------------------|---------------------|-------|
| HLK-5M03 | 38*23*18 | 5 | 3.3 | 1500 | |
| HLK-5M05 | | | 5 | 1000 | |
| HLK-5M09 | | | 9 | 560 | |
| HLK-5M12 | | | 12 | 450 | |
| HLK-5M24 | | | 24 | 208 | |

3. Product features

1. Ultra-thin, ultra-small, smallest volume;
2. Global universal input voltage (90~265Vac)
3. Low power consumption, green environmental protection, no-load loss<0.1W
4. Low ripple, low noise
5. High output short circuit and over-current protection and self recovery
6. High efficiency, high power density
7. Input and output isolation voltage 3000Vac
8. 100% full load aging and testing
9. High reliability, long life design, continuous working time is greater than 100,000 hours;
10. Meet UL, CE requirements; product design to meet EMC and safety testing requirement;
11. Using high-quality environmentally friendly waterproof plastic potting, moisture, vibration, water and dust to meet IP65 standards
12. Economic solutions, cost-effective
13. Work without external circuit
14. 1 year quality guarantee period

4. Environmental conditions

| Items | Technical Parameters | Units | Notes |
|----------------------|---|-------|--|
| Working temperature | -25—+60 | °C | |
| Storage temperature | -40—+80 | °C | |
| Relative humidity | 5—95 | % | |
| Thermal methods | Natural cooling | | |
| Atmospheric pressure | 80—106 | Kpa | |
| Altitude | ≤2000 | m | |
| Vibration | Vibration coefficient 10~500Hz,2G10min./1cycle, 60min.each along X,Y,Z axes | | Meets requirements for secondary road transportation |

5. Electrical characteristics

5.1 Input features

| Items | Technical Parameters | Units | Notes |
|---------------------------|--|-------|--------------|
| Rated input voltage | 100~240 | Vac | |
| Input voltage range | 85-264 | Vac | Or 70-350Vdc |
| The maximum input current | ≤0.2 | A | |
| Input inrush current | ≤10 | A | |
| Input low start | ≤50 | mS | |
| Long-term reliability | MTBF≥100 , 000 | h | |
| External fuse recommended | 1A / 250Vac or 10Ω wire wound resistance | | Slow blow |

Note: Tested at room temperature

5.2 Output features (3.3V/1500mA)

| Items | Technical Parameters | Units | Notes |
|--------------------------------------|---|-----------------|-------------------------------|
| No-load rated output voltage | 3.3±0.1 | Vdc | |
| Full-load rated output voltage | 3.3±0.2 | Vdc | |
| Short time maximum output current | ≥1800 | mA | |
| Long time maximum output current | 1500 | mA | |
| Voltage regulation | ±0.2 | % | |
| Load regulation | ±0.5 | % | |
| Input low voltage efficiency | Vin=115Vac , Output full load≥69 | % | |
| Input high voltage efficiency | Vin=230Vac , Output full load≥70 | % | |
| Output ripple and noise (mVp-p) | ≤50 Rated input voltage, output full load. With 20MHz bandwidth oscilloscope, Load side 10uF and 0.1uF capacitance test. | mV | |
| Switching on/off overshoot amplitude | (Rated input voltage, output plus 10% load) ≤5 | %V _O | |
| Output over-current protection | Output maximum load 110-150% | A | |
| Output short circuit protection | Direct short circuit in normal output and automatic return to normal operation after removal of short circuit | | No-damage to the whole device |

5.3 Output features (5V/1000mA)

| Items | Technical Parameters | Units | Notes |
|--------------------------------------|--|-----------------|-------------------------------|
| No-load rated output voltage | 5.0±0.1 | Vdc | |
| Full load rated output voltage | 5.0±0.2 | Vdc | |
| Short-time maximum output current | ≥1200 | mA | |
| Long time maximum output current | 1000 | mA | |
| Voltage regulation | ±0.2 | % | |
| Load regulation | ±0.5 | % | |
| Input low voltage efficiency | Vin=115Vac , Output full load≥69 | % | |
| Input high voltage efficiency | Vin=230Vac , Output full load≥70 | % | |
| Output ripple and noise(mVp-p) | ≤50 Rated input voltage, full output load. Using 20MHz bandwidth oscilloscope, Load side test with 10uF and 0.1uF capacitors | mV | |
| Switching on/off overshoot amplitude | (Rated input voltage, output plus 10% load) ≤5 | %V _O | |
| Output over-current protection | Output maximum load 110-150% | A | |
| Output short circuit protection | Direct short circuit in normal output and automatic return to normal operation after removal of short circuit | | No damage to the whole device |

5.4 Output features (9V/560mA)

| Items | Technical Parameters | Units | Notes |
|--------------------------------------|---|-----------------|-------------------------------|
| No-load rated output voltage | 9.0±0.1 | Vdc | |
| Full load rated output voltage | 9.0±0.2 | Vdc | |
| Short-time maximum output current | ≥680 | mA | |
| Long time maximum output current | 560 | mA | |
| Voltage regulation | ±0.2 | % | |
| Load regulation | ±0.5 | % | |
| Input low voltage efficiency | Vin=115Vac , Output full load≥69 | % | |
| Input high voltage efficiency | Vin=230Vac , Output full load≥70 | % | |
| Output ripple and noise(mVp-p) | ≤70 Rated input voltage, full output load. Using 20MHz bandwidth oscilloscope, Load side and 10uF and 0.1uF capacitors are tested. | mV | |
| Switching on/off overshoot amplitude | (Rated input voltage, output plus 10% load) ≤5 | %V _O | |
| Output over-current protection | Output maximum load 110-150% | A | |
| Output short circuit protection | Direct short circuit in normal output and automatic return to normal operation after removal of short circuit | | No damage to the whole device |

5.5 Output features (12V/450mA)

| Items | Technical Parameters | Units | Notes |
|--------------------------------------|---|-----------------|-------------------------------|
| No-load rated output voltage | 12.0±0.1 | Vdc | |
| Full load rated output voltage | 12.0±0.2 | Vdc | |
| Short-time maximum output current | ≥540 | mA | |
| Long time maximum output current | 450 | mA | |
| Voltage regulation | ±0.2 | % | |
| Load regulation | ±0.5 | % | |
| Input low voltage efficiency | Vin=115Vac , Output full load≥69 | % | |
| Input high voltage efficiency | Vin=230Vac , Output full load≥70 | % | |
| Output ripple and noise(mVp-p) | ≤70 Rated input voltage, full output load. Using 20MHz bandwidth oscilloscope, Load side and 10uF and 0.1uF capacitors are tested. | mV | |
| Switching on/off overshoot amplitude | (Rated input voltage, output plus 10% load) ≤5 | %V _O | |
| Output over-current protection | Output maximum load 110-150% | A | |
| Output short circuit protection | Direct short circuit in normal output and automatic return to normal operation after removal of short circuit | | No damage to the whole device |

5.6 Output features (24V/208mA)

| Items | Technical Parameters | Units | Notes |
|--------------------------------------|---|-----------------|-------------------------------|
| No-load rated output voltage | 24.0±0.1 | Vdc | |
| Full load rated output voltage | 24.0±0.2 | Vdc | |
| Short-time maximum output current | ≥308 | mA | |
| Long time maximum output current | 208 | mA | |
| Voltage regulation | ±0.2 | % | |
| Load regulation | ±0.5 | % | |
| Input low voltage efficiency | Vin=115Vac , Output full load≥69 | % | |
| Input high voltage efficiency | Vin=230Vac , Output full load≥70 | % | |
| Output ripple and noise(mVp-p) | ≤70 Rated input voltage, full output load. Using 20MHz bandwidth oscilloscope, Load side and 10uF and 0.1uF capacitors are tested. | mV | |
| Switching on/off overshoot amplitude | (Rated input voltage, output plus 10% load) ≤5 | %V _O | |
| Output over-current protection | Output maximum load 110-150% | A | |
| Output short circuit protection | Direct short circuit in normal output and automatic return to normal operation after removal of short circuit | | No damage to the whole device |

6. Input voltage and load characteristics

Input voltage and load characteristic curve

7. Working environment temperature and load characteristics

Environmental temperature and load characteristic curve

8. Typical application circuit

Input parts

| Component number / recommended device | Functions | Recommended value |
|--|--|--|
| Fuse | Protect the circuit from damage when the module is working wrong | 0.5A/250Vac , Slow fuse |
| Varistor | The cumulative surge is to protect the module from damage | 10D561K |
| C1/Safety capacitance | Filtering, safety protection (EMC certification) | 0.1uF/275Vac |
| L1/Common-mode inductance | EMI filtering | Sensible value10-15mH , current 70-500mA |
|   | | |
| Safety capacitance | | Common-mode inductance |

Notes:

- Fuse and varistor are basic protective circuits (must be connected).
- If you need to pass the authentication/certification, the Safety capacitance and common-mode inductance could not be omitted.

Output parts

| Component number / recommended device | Functions | Recommended value |
|---------------------------------------|---|---|
| C2/filter capacitor | output ripple can be controlled in 30mV after adding this capacitor | Aluminium electrolytic capacitance, capacity 100-220 UF, voltage reduction greater than 75% |
| RL/Load | Load | |

Note: C2 filter capacitor can reduce the output ripple from the original 50mV to the 30mV.

9. Safety characteristic

9.1 Certification

Product design meets UL and CE safety certification requirements. (The UL and CE certifications are made by the customer and need to be designed according to the reference circuit.)

9.2 Safety and electromagnetic compatibility

- The input design adopts UL listed 1A / 250Vac slow-blow fuse or 10 Ω wire-wound resistor
- The PCB board is made of double-sided copper clad foil, and the material fire resistance grade is 94-V0 grade
- Safety standard meets UL1012,EN60950,UL60950
- Insulation voltage I/P-O/P:2500Vac
- Insulation resistance I/P-O/P>100M Ohms/500Vdc 25°C 70% RH
- Conduction and radiation meet EN55011, EN55022 (CISPR22)
- Electrostatic discharge IEC/EN 61000-4-2 level 4 8kV/15kV
- Radio frequency radiation immunity IEC/EN 61000-4-3

10. Marking, packaging, transportation, storage

10.1 Marking

10.1.1 Product marking

The product's unique bar code mark is attached to the appropriate location of the product to ensure traceability of the date of manufacture, product batch, etc. of each product. Its content meets the requirements of national standards and industry standards.

10.1.2 Packing marking

Product box marked with the name of the manufacturer, site, zip code, product model, factory year, month, day; Marked with "up", "moisture-proof" and "carefree" and other transport signs, all signs are in line with the provisions of GB 191.

10.2 Packaging

Products using special plastic boxes separated packaging, with anti-vibration function, and in line with the provisions of GB 3873.

10.3 Transportation

Packaged products can be transported by any means of transportation, should be awning in transit, there should be no violent vibration, impact, etc.

10.4 Storage

Product storage must meet the requirements of GB3873.

11. Dimensions and weight

| Pin function | |
|----------------------|-----|
| 1 | AC |
| 2 | AC |
| 3 | -V0 |
| 4 | +V0 |
| Weight: 32±1g | |

Dimensional error:

1. Length, width, height and pin pitch error $\pm 8\%$
2. Pin length error $\pm 1\text{mm}$
3. Pin diameter error -0.2mm

Unit: mm
