

SECTION I. IDENTIFICATION

PRODUCT IDENTIFIERS

Product Name Wipex 70% IPA Presaturated Wipes  
1.CLS.21806.3

RELEVANT IDENTIFIED USES OF THE SUBSTANCE OR MIXTURE AND USES ADVISED AGAINST

Identified uses Non-woven fabric wipes saturated with 1.CLS.21806.3 solution

DETAILS OF THE SUPPLIER OF THE SAFETY DATA SHEET

Company Unico ITC  
DBA A World of Wipes  
DBA Dutch Harbor Brands  
240 W Palmetto Park Rd, Ste 300 Boca Raton, FL 33432, USA

FOR PRODUCT INFORMATION ONLY

Company Telephone (561) 338-3338

## SECTION II. HAZARD IDENTIFICATION

Signal Word:  
Danger

|   |   |
|---|---|
| Classification of the Substance or Mixture  | -Flammable Liquids, Category 2 (Flam. Liq. 2, H225)<br>-Eye Damage / Eye Irritation, Category 2 (Eye Irrit. 2, H319)<br>-Specific Target Organ Toxicity (Single Exposure), Category 3 (STOT SE3, H336)  |
| <b>Label Elements</b>                       | Signal Word: Danger   |
| Hazard Statements                           | H225 Highly flammable liquid and vapor<br>H319 Causes serious eye irritation<br>H336 May cause drowsiness or dizziness  |
| Precautionary Statements – Response/Storage | P210 Keep away from heat/sparks/open flames/hot surfaces. - no smoking<br>P233 Keep container tightly closed<br>P261 Avoid breathing dust/fume/gas/mist/vapors/spray<br>P264 Wash hands thoroughly after handling<br>P271 Use only outdoors or in a well-ventilated area  |
| Precautionary Statements – Response/Storage | P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clother. Rinse skin with water/shower<br>P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing<br>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing<br>P312 Call a POISON CENTER or doctor/physician if you feel unwell<br>P337+P313 If eye irritation persists: Get medical advice/attention<br>P403+P235 Store in a well-ventilated place. Keep cool |
| Precautionary Statements – Disposal         | P501 Dispose of contents in accordance to local regulations   |

## SECTION III. COMPOSITION/INFORMATION ON INGREDIENTS

| CHEMICAL NAME     | CAS-No. | CONCENTRATION (%) |
|-------------------|---------|-------------------|
| Isopropyl Alcohol | 67-63-0 | 50 <= x % < 100   |

## SECTION IV. FIRST AID MEASURES

### DESCRIPTION OF FIRST AID MEASURES

|  |  |
|--|--|
| In the event of splashes or contact with eyes                      | Wash thoroughly with fresh, clean water for 15 minutes holding the eyelids open. Remove contact lenses. Afterwards consult an ophthalmologist immediately  |
| In the event of splashes or contact with skin                      | Watch out for any remaining product between skin and clothing, watches, shoes, etc. Take off immediately all contaminated clothing, wash immediately with soap and plenty of water. If skin irritation occurs: Consult physician immediately |
| In the event of swallowing   | Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person. Do not induce vomiting. Immediately get medical attention  |
| In case of inhalation  | Move victim to fresh air; if necessary, provide artificial respiration or oxygen. Seek medical attention   |
| Most important symptoms and effects, both acute and delayed        | May cause drowsiness or dizziness. Causes serious eye irritation   |
| Indication of any immediate attention and special treatment needed | No data available  |

## SECTION V. FIREFIGHTING MEASURES

### Flammable

|   |   |
|---|---|
| Suitable methods of extinction                        | Water fog, extinguishing powder, alcohol resistant foam.<br>In enclosed areas: Carbon dioxide.<br>Extinguishing media which must not be used for safety reasons:<br>Full water jet  |
| Special hazards arising from the substance or mixture | Highly flammable liquid and vapor. Liquid evaporates quickly. Vapors are heavier than air and will spread at floor level. Vapors can form explosive mixtures with air. Beware of reignition.<br>In case of fire may be liberated: Carbon monoxide and carbon dioxide. In enclosed areas: Risk of suffocation!   |
| Advice for firefighters                               | Wear self-contained positive pressure breathing apparatus and full firefighting protective clothing.<br>Use fine water spray to cool endangered containers.<br>Move undamaged containers from immediate hazard area if it can be done safely.<br>Fire residuals and contaminated extinguishing water must be disposed of in accordance with the regulations of the local authorities. |

## SECTION VI. ACCIDENTAL RELEASE MEASURES

|   |   |
|---|---|
| Personal precautions, protective equipment and emergency procedures | Eliminate all ignition sources if safe to do so. Provide adequate ventilation. Do not breathe vapors. Avoid contact with the substance. Wear appropriate protective equipment. <b>Keep unprotected people away</b>  |
| Environmental precautions   | Do not allow to penetrate into soil, waterbodies or drains. If necessary, notify appropriate authorities.   |
| Methods and material for containment and cleaning up                | In case of greater quantities: Collect mechanically (use only explosion-proof equipment when pumping out). Dam spills and pump to remove. Close all lower level rooms. Contact expert. Absorb leftover product with non-flammable liquid-binding material (e.g. earth, sand, vermiculite or ground sand stone) and place in closed containers for disposal. |

## SECTION VII. HANDLING AND STORAGE

|                                      |  |
|--------------------------------------|--|
| Precautions for safe handling        | Always wash hands after handling.<br>Remove and wash contaminated clothing before re-using.<br>Ensure that there is adequate ventilation, especially in confined areas.<br>Do not breathe vapors. Avoid contact with skin and eyes.<br>Wear appropriate protective equipment.<br>When using do not eat, drink, smoke, sniff.         |
| Fire prevention                      | Take precautionary measures against static discharges. Keep away from sources of ignition - No smoking. With air, vapours form potentially explosive mixtures, which are heavier than air. In partially filled containers explosive mixtures may form.<br>Use only explosion-protected equipment/instruments. Do not weld.           |
| Recommended equipment and procedures | Keep container tightly closed in a cool, well-ventilated place.<br>Protect from heat and direct sunlight.<br>Packages which have been opened must be reclosed carefully and stored in an upright position.   |
| Prohibited equipment and procedures  | No smoking, eating or drinking in areas where the mixture is used.   |
| Storage                              | Keep away from food, drink and animal feeding stuffs. Do not store together with combustible or self-igniting materials or any highly flammable solids.<br>Avoid contact with strong oxidizing agents, strong acids, Alkalis and alkaline earth metals.<br>Store products in tightly closed, original containers in cool, dry place. |
| Packaging                            | Always keep in packaging made of an identical material to the original.  |

SECTION VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION

|   |   |
|---|---|
| Occupational exposure limits  | No data available   |
| Personal protection measures, such as personal protective equipment | Provide for good ventilation or exhaust system or work with completely self-contained equipment. Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.  |
| Eye/Face Protection   | Avoid contact with eyes.<br>Use eye protectors designed to protect against liquid splashes<br>Before handling, wear safety goggles with protective sides accordance with standard EN166   |
| Hand Protection   | Gloves must be selected according to the application and duration of use at the workstation.<br>Use appropriate gloves.<br>Wash hands before breaks and at once after manipulation of the product.  |
| Body Protection   | Avoid skin contact.<br>Wear suitable protective clothing.<br>Suitable type of protective clothing:<br>In the event of substantial spatter, wear liquid-tight protective clothing against chemical risks (type 3) in accordance with EN14605 to prevent skin contact.<br>In the event of a risk of splashing, wear protective clothing against chemical risks (type 6) in accordance with EN13034 to prevent skin contact.<br>Work clothing worn by personnel shall be laundered regularly.<br>After contact with the product, all parts of the body that have been soiled must be washed. |

## SECTION IX. PHYSICAL AND CHEMICAL PROPERTIES

|                                       |                               |
|---------------------------------------|-------------------------------|
| COLOR/ODOR/APPEARANCE:                | Colorless liquid              |
| Solubility                            | No data available             |
| Initial Boiling Point/Range           | No data available             |
| Specific Gravity (H <sub>2</sub> O=1) | No data available             |
| Vapor Pressure (@ 20 C Mm Hg)         | None available                |
| Evaporation Rate (Butyl Acetate=1)    | None available                |
| Solubility In Water                   | Negligible                    |
| pH                                    | 6.5-9.0                       |
| Viscosity                             | None available                |
| Density (20°C)                        | 0.75-0.95                     |
| Molecular Formula                     | None available                |
| Flammability (solid, gas):            | None available                |
| Flash Point                           | 18 °C                         |
| Flammable Limits:                     | None available                |
| Odor:                                 | Characteristic - alcoholic    |
| Odor Threshold                        | No data available             |
| Melting/Freezing Point                | Not Available                 |
| Voc                                   | None available                |
| Vapor Density (Air=1)                 | None available                |
| Coefficient Of Water/Oil              | Not Available                 |
| Volatile                              | Not Available                 |
| Decomposition Temperature             | Not Determined                |
| Explosive Properties                  | Not explosive                 |
| Oxidizing Properties                  | Not an oxidizer               |
| Molecular Weight                      | Mixture                       |
| Autoignition Temperature              | Not Determined                |
| Other Information                     | None available                |
| Color                                 | Colorless, transparent        |
| Physical State                        | Non-woven fabric, impregnated |

## SECTION X. STABILITY AND REACTIVITY

|                                    |   |
|------------------------------------|---|
| Reactivity                         | Highly flammable liquid and vapor<br>Vapors can form explosive mixtures with air  |
| Chemical Stability                 | This mixture is stable under the recommended handling and storage conditions in section 7   |
| Possibility of hazardous reactions | Liquid evaporates quickly. Vapours are heavier than air and will spread at floor level.<br>Vapours can form explosive mixtures with air. Beware of reignition.<br>Heating will lead to pressure increase: Danger of bursting and explosion. |

# SAFETY DATA SHEET

|                                  |  |
|----------------------------------|--|
| Conditions To Avoid              | Avoid temperatures close to flashpoint.<br><br>Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.<br>No smoking. Protect from direct exposure to sunlight. |
| Incompatible materials           | No data available  |
| Hazardous Decomposition Products | The thermal decomposition may release/form :<br><br>- carbon monoxide (CO)<br><br>- carbon dioxide (CO <sub>2</sub> )<br>No decomposition when used properly                               |

## SECTION XI. TOXICOLOGICAL INFORMATION

|  |   |
|--|---|
| Information on toxicological effects                                       | No data is available regarding the preparation itself. However, exposure of this preparation could lead to health problems for especially sensitive subjects or due to unforeseeable reasons. |
| Acute Toxicity   | No data available   |
| Mixture  | No data available   |
| Monograph(s) from the IARC (International Agency for Research on Cancer) : | No data available   |

## SECTION XII. ECOLOGICAL INFORMATION

|                               |                   |
|-------------------------------|-------------------|
| Toxicity                      | No data available |
| Persistence and Degradability | No data available |
| Bioaccumulative Potential     | No data available |
| Mobility in Soil              | No data available |
| Other adverse effects         | No data available |

## SECTION XIII. DISPOSAL CONSIDERATIONS

|                         |  |
|-------------------------|--|
| Waste Treatment Methods | Do not pour into drains or waterways   |
| Waste                   | <p>Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.</p> <p>Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.</p> <p>Do not contaminate the ground or water with waste, do not dispose of waste into the environment.</p> |
| Soiled Packaging        | <p>Empty container completely. Keep label(s) on container.</p> <p>Give to a certified disposal contractor.</p>   |

## SECTION XIV. TRANSPORT INFORMATION

Transport product in compliance with provisions of the ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport (ADR 2017 - IMDG 2016 - ICAO/IATA 2017).

- Items **WX72002SSDB1** / **WX71974SSDB70** (70% isopropyl alcohol wipe sachets) contain ~2.66 mL isopropyl alcohol per package. Individual sachets containing less than 10 mL isopropyl alcohol with no free liquid are not regulated as dangerous goods in transportation as per special provisions 47 (49-CFR), A46 (IATA), 216 (IMDG), and 56 (TDG).
- Item **WX71960IPA70** (70% isopropyl alcohol 1000ct wipe bucket) is considered HazMat as per 49-CFR (USDOT Reg. For Domestic Shipping and Transporting of Hazardous Materials). Items must be shipped according to local regulations with all required external indications, forms, and manifests.
- A Limited Quantity exemption for HazMat applies to item **WX71977ALC70** (70% isopropyl alcohol 80ct wipe canister) as per USDOT 49-CFR. This item falls within the inner packaging limits for isopropyl alcohol wipes and must ship according to all local regulations.

|  |  |
|--|--|
| UN number  | 3175   |
| UN proper shipping name  | UN3175= Solids containing flammable liquid, n.o.s. (Isopropyl Alcohol) |
| Transport hazard class(es)   | Classification 4.1   |
| Packaging group  | II   |
| Environmental hazards  | Environmentally hazardous material: No                                 |
| Special precautions for user                                       | No data available  |
| Transport in bulk according to Annex II of Marpol and the IBC Code | No data available  |

## SECTION XV. REGULATORY INFORMATION

**EPA SARA 302:** This product does not contain chemicals regulated under SARA Section 302.

**EPA SARA 311 Hazard Classification:** Not Hazardous

**EPA SARA 313:** This product contains the following chemicals that are regulated under SARA Title III, section 313:

None

**California Proposition 65:** This product is not known to contain any chemicals which are known to the State of California to cause cancer or reproductive harm.

**Toxic Substances Control Act:** All of the components of this product are listed on the TSCA inventory.

**Canadian Environmental Protection Act:** All of the components of this product are listed on the Canadian Domestic Substances List (DSL).

**WHMIS Classification:** Not a controlled product.

This product has been classified in accordance with the hazard criteria in the CPR and the SDS contains all the information required by the CPR.

**European Inventory of Commercial Chemical Substances:** All of the components of this product are listed on the EINECS Inventory.

**Australian Inventory of Chemical Substances:** All of the components of this product are listed on the AICS Inventory.

**Inventory of Existing Chemical Substances of China:** All of the components of this product are listed on the Chinese IECSC.

**Korean Existing Chemical List:** All of the components of this product are listed on the KECL Inventory.

**Philippine Inventory of Chemicals and Chemical Substances:** All of the components of this product are listed on the PICCS.

SECTION XVI. OTHER INFORMATION

N/A = Not applicable    NDA = No data available    NEG. = Negligible    < = Less Than    > = More than

| GHS Classification for Reference (See Sections 2 and 3) |                                   |
|---|-----------------------------------|
| H225  | Highly flammable liquid and vapor |
| H319  | Causes serious eye irritation     |
| H336  | May cause drowsiness or dizziness |

**We believe the statements, technical information and recommendations contained herein are reliable. However, the data is provided without warranty, expressed or implied. It is the user's responsibility both to determine safe conditions for use of this product and assume loss, damage or expense, direct or consequential arising from its use. Always read label before using product.**
