13-30993-SS	1/4" Flat Washer, Stainless Steel	14
13-10161-Z	1/4"-20 Nyloc Nut	4

Rear Corner Guard Installation Instructions

- 1. Working on one side at a time. Position Corner Guard on vehicle and mark all holes to be drilled.
- 2. Remove Corner Guard and drill 25/64" holes in body and 9/32" holes in bumper.
- 3. Once all holes are drilled, install Rivet Nuts (13-11151-Z) in 25/64" holes in body. A Rivet Nut Setting Tool is necessary to accomplish this.
- 4. Position Corner Guard in place and install all hardware. It is recommended to use Anti-Seize on the threads of the bolts.
- 5. Repeat process on opposite side.
