

## Instructions for editing your digital invitation

### Step 1: Edit Text

#### Mobile Instructions:

We recommend using a computer for easier editing.

Tap on the text you wish to edit and press the EDIT TEXT button in the left hand corner.

If you are editing on your mobile you cannot change the text size, colour or style. If you wish to use these options you will require a computer.

#### Computer Instructions:

Change the text by double clicking on a text box.

You can also use the text box in the tools panel to edit the text.

In the tools panel you can also change the font size, colour and style, as well as line spacing.

### Step 2: Save

When you have finished personalising, save your design.

## Step 3: Download

1. Click the download button and download your file in JPG format.
2. In the page number dropdown (Page #) select 'All individually' to download all pages.
3. Do NOT tick show trim marks.
4. Choose whether you want the file downloaded directly to your device or emailed to you. This may take a few minutes.
5. If you have selected 'download to device' the download location is different for every device. It may appear in one of the following locations:
  - In your Downloads folder: For an Apple device this can be accessed by clicking the blue arrow that appears in the URL bar or at the top of the page.
  - **In your Files folder:** iPhones have a built-in app called Files to store downloaded files, which you can search for and then open to locate your digital invite.
  - **In your camera roll:** If you are on a mobile you can save the image to camera roll.
6. Once you have located the download you can send the image in a message or email to as many guest as you like.
