# BUY BACK PROGRAM

As an added perk this year, we have a buyback program for smokable hemp flower and biomass that is marketed through **[WWW.SMOKABLEHEMP.COM](http://WWW.SMOKABLEHEMP.COM)**.

This program will serve as a liaison between our farmers and potential buyers to create a sustainable distribution channel. Our experienced team will analyze your flower, rate it appropriately based on a qualitative analysis, and propose a purchase price.

***Inquire today!***

# WHO WE ARE

## **Matthew Haddad, Founder & CEO**

Matt is a breeding and processing specialist in the cannabis and hemp industry. He has helped build several award winning brands in the cannabis sector, ranging from genetics companies to extraction and post refinement. Matt is known as a thought leader in the industry and is routinely selected to speak at various expos and trade shows. He is an advocate for implementing new technological innovations to Trilogene's business model and transforming the way cannabis can be utilized. Matt is a cannaseur of top quality cannabis products. His visions and expertise will continue to drive the industry forward for years to come.

## **Jen Wysocki, Compliance Manager**

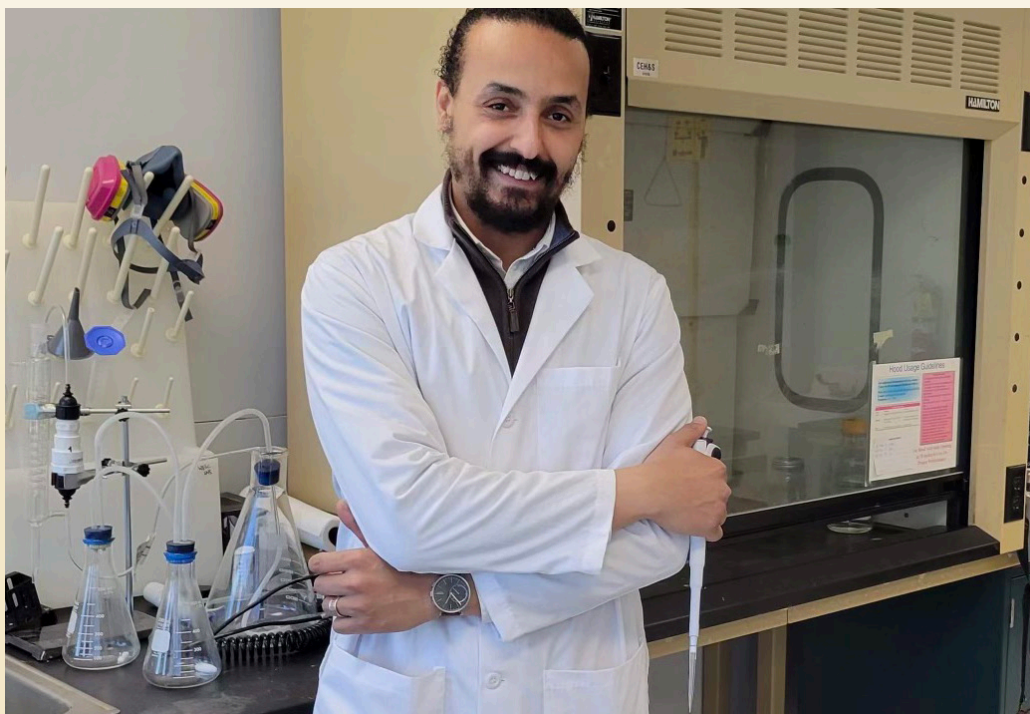

Jennifer's transitioned into the Hemp and CBD marketplace 3 years ago to help her partner run the business. Her experience in entertainment and advertising industries brings a unique flare to the group. She wears multiple hats and manages Trilogene's compliance department for all international sales. She is passionate about educating and growing awareness on hemp as a versatile plant that will facilitate positive change towards our health, sustainable living, and protecting the environment for future generations. Overall, she's extremely adventurous and loves to travel, explore, surf, swim, and spend time in nature with her 3 pups.

## Kevin Liebrock, CMO

Kevin Liebrock, serving as Trilogene Seeds' Chief Marketing Officer (CMO), brings a wealth of expertise in catapulting cannabis and dietary supplement ventures to new heights and masterfully crafting and enhancing e-commerce platforms for peak performance. With over a decade of strategic leadership, Kevin significantly contributed to the cannabis industry's growth. He was a founding member and director of the US Hemp Roundtable, playing a pivotal role in collaborating with lawmakers such as Rand Paul, Jared Polis, and Mitch McConnell. This collaboration resulted in the passage of a key element of the 2018 Agricultural Improvement Act, which removed hemp from Schedule I of the Federal "Controlled Substances Act." His expertise and leadership are instrumental in driving Trilogene Seeds' e-commerce business and its innovative approach to the cannabis genetics market.

## Oussama Badad, Lead Geneticist

Oussama Badad is the Lead Geneticist at Trilogene Seeds. Oussama is a PhD candidate in a joint supervision doctoral grant between the university Mohamed the fifth, Rabat, Morocco, and the Southern Illinois University Carbondale. Oussama is currently working on the epigenetic imprints in crop domestication using cutting edge technologies such as methylated DNA and chromatin immunoprecipitation (MeDIP/CHIP/ATAC-seq), gene expression (RNA seq). In addition to epigenetics Oussama is an expert in functional genomics with a proven track record of publications in the soybean genomics industry his contributions helped the soybean industry solve issue such as poor seed quality, oil content, resistance to disease and developing breeding strategies for farmers. From Mutant population for pheno hunts to gene editing, Oussama brings his decade expertise to help the cannabis industry solve bottlenecks and enable scale.

## **Demetrius Cook, Brand Manager**

Born and raised in Southern California, coming from OC, Demetrius AKA "DC" has been cool as a cucumber since he can remember. After his playing career he turned his eyes to the silver screen, producing commercials for major brands globally as well produced Super Bowl commercials. With more than 7 years of progressive experience in marketing, branding and advertising he aids Trilogene focusing on content creation, graphic design, and strategic communication. DC has been with the company since 2018 rockin and rollin!

## **Andrea Giraldo, Design Director**

Andrea AKA Dre is a conceptual Art Director with a great understanding of the digital world. Shes worked in the advertising industry for over 11 years executing advertising campagins for countless global brands. For the past couple of years has also worked worked in the cannabis space designing and helping build cannabis brands from scratch. She has brought her experisie in helping build Trilogene's look and feel bringing them to the next level. Her areas of expertise are graphic design, photography, content creation, ideation and execution.

# CEO MATT HADDAD ANSWERS YOUR MOST COMMON QUESTIONS

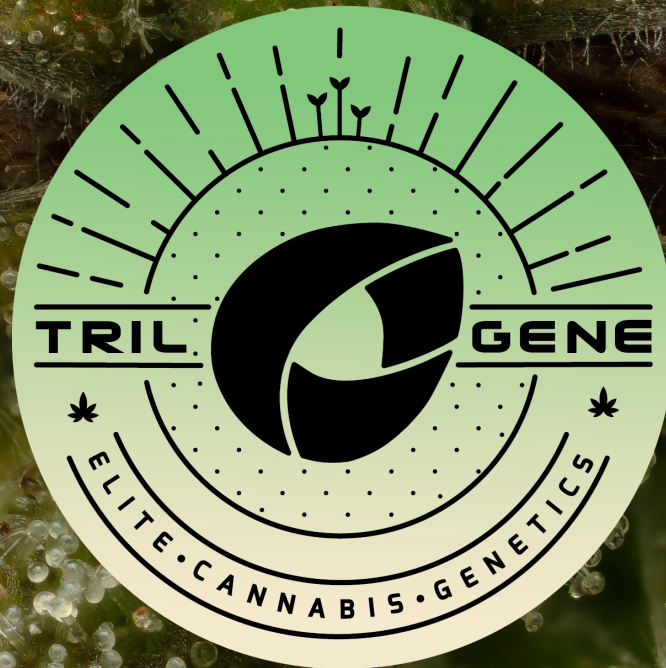

**1. What are the best CBD varieties for outdoor production this year?** Our top recommendations this year are Ultra Pink, Ultra Pink 3n Triploid and Auto Alpha, and Auto Glu. They are all very worked lines that have a razor sharp canopy and are extremely uniform.

**2. Which THC varieties have the best extraction yields?** The Honey Badger, Grapefoot Juice, Granny Smith Punch, and Ikigai Sour are all excellent for rosin and bubble hash. The "TroPickle" variety boasts incredible high terpene sauce.

**3. Do you offer genetic licensing and exclusivity?** Yes, we have a genetic licensing program where exclusivity can be obtained in different territories. You will get our best TBCs (the breeder's cut) of our genetics either as URCs (unrooted cuttings) or tissue culture.

**4. Do you offer Triploid seeds?** Yes, we have 3 Triploid offerings this year consisting of Ultra Pink 3n Triploid (CBDa), Sour Bremix 3n Triploid (THCa), and Sour Magic 3n Triploid (THCa).
