

# ULTRA PINK

**Name:** Ultra Pink

**Parent Lines:** Ultra Violet x Cats Meow

**Cannabinoid Profile:** CBD Dominant

**Potential CBD:THC Ratio:** 36:1

\*Pre-Harvest **CBD:** 8.1%, **THC:** 0.18%

\*Post-Harvest **CBD:** 14.6%, **THC:** 0.4%

**Aroma:** A pungent combination of bubblelush bubblegum and dried mango fruit.

**Flavors:** A sweet flavonoid profile with a smooth after taste, dominant in terpinolene.

**Appearance:** Purple and pink bud structure with small lime green fan leaves. Loads of resin production and great for indoor growers.

**Backstory of Strain:** This new variety was created using Ultra Violet Pollen from one of our best CBD|THC ratio Phenotypes crossed with Cats Meow. It was designed as an early harvesting photoperiod variety with true hybrid vigor aka heterosis.

**Size & Style:** Medium sized plant with high flower to leaf ratio.

**Ideal Harvest Range:** Indoor: \*8 weeks

\*Outdoor: Early September

**Ideal Outdoor Spacing:** 4x4

**Potential Yield Per Plant:** 1-4 lbs dry plant

**Germination Rate:** 90+%

**Feminization Rate:** 99+%
