Changes made for smallest size only:

- Number of rows between buttonholes has changed.

Changes made for all sizes:

- Instructions for armhole shaping, neck shaping, and buttonhole placement have all been integrated, getting rid of the need to keep track of "at the same time" instructions.
- Finished measurements have changed slightly in various parts. Schematic drawing has been updated to reflect changes.
- Wrap-and-turn short rows in shoulders and sleeve caps have been replaced with yarnover short rows, to reduce visibility of wraps on the RS.
- Collar pick-up instructions and stitch counts have been updated.
