READ AND SAVE THESE INSTRUCTIONS

Safety Instructions

Handling

- · Please turn off and disconnect the machine before moving it.
- · Please empty the water tank before moving the machine.

Installation

- · Please install the machine according to the instructions provided to avoid electrical shock, fire, bodily harm, or other dangers.
- · Do not connect the power cable until you have finished setting up the machine.

Power Cable

- To avoid risk of fire, shock, or damage:
- · Plug the power cable into an appropriate socket.
- · Do not pull or stretch the power cable.
- · Disconnect the power cable before performing cleaning, maintenance, or moving the machine.
- · If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

While in Use

- · If the product starts producing a strange sound, odor, or gets very hot, cease use immediately.
- · Do not put your finger or other foreign objects inside the protective covering, intake port, exhaust port, or other movable parts.
- · Do not allow hair or loose threads to get caught in the intake or exhaust ports.
- · Do not sit or lean on the machine.
- · Ensure adequate ventilation when used alongside household gas appliances (such as gas stoves or water heaters) to avoid carbon monoxide
- · If the alarm stops working, it may be caused by water accumulation in the upper casing. It will not affect use. It should resume working normally after the water has evaporated.

Usage Restrictions

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

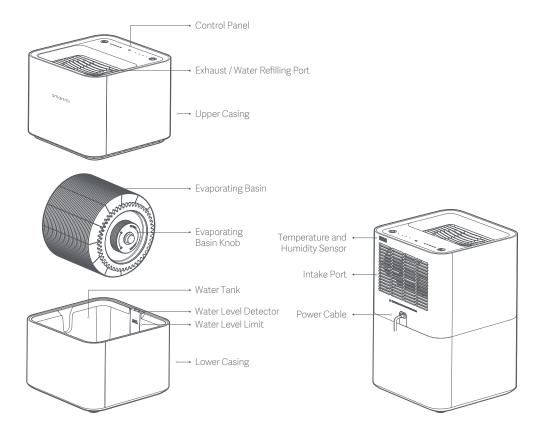

Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without

Do not use under the following circumstances to avoid shock, fire, or other dangers:

If the purifier is tilted, it may misread the water level in the tank, or cause spills. Please ensure that the device is even before use.

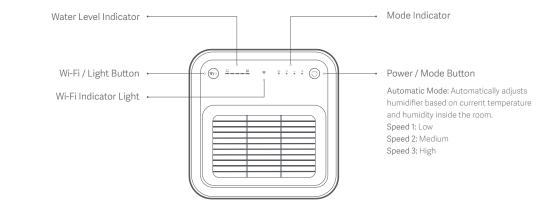

Product Introduction

⚠ The Smartmi 2-in-1 Purifier and Humidifier humidifies using evaporation, so it won't produce a visible mist.

Note: If you fill past the maximum water level, the water level indicator lights will flash and the machine will give off warning beeps, and water should be stopped adding immediately.

Usage

Suitable Water: Tap Water, Mineral Water, Purified Water

You can directly add water through the refilling port

while the purifier is powered on. The water will flow

down into the tank, and the water level indicator will

change to reflect how much water has been added.

Add water through the refilling port

Stop when all the lights are on.

2 Add water into the water tank

maximum water level indicator.

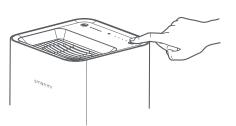

Take off the top half of the purifier, and directly add

water into the tank. Take care not to fill past the

Usage

Turning the Machine On and Off, and Changing Modes

Press the Power / Mode Button to turn the machine on. The first time you start the machine, it will default to automatic mode. You can press the button again to switch modes. Holding the button for 2 seconds will turn the machine off.

Note: The machine will not turn on if the water level in the tank is lower than the minimum water level. You will have to add water to turn the machine on.

Note: You can turn the Air Dry mode on or off through the Mijia app.

If Air Dry mode is on:

When the water level drops lower than 10%, the humidifier will continue to operate for about 8 hours to dry out the water tank, avoiding strange odors caused by stagnant water.

If Air Dry mode is off:

When the water level drops lower than 10%, the humidifier will automatically turn off.

Press the Wi-Fi / Light Button to adjust brightness between high, low, and off.

Platform. It can be controlled through the Mijia app, supports the MIUI system, and can connect with other Mijia smart products.

below to install the Mijia app.

Enable your phone's Bluetooth, and go to the front page of the and go to the front page of the Mijia app. Press the + in the upper right corner, select Add a Device and select "Smartmi 2-in-1 Purifier and Humidifier". After adding the device, you should see it on the front page of the Mijia app.

This product is compatible with the Mijia Smart

▲ Turn the humidifier off and disconnect the power cable

You can rinse the water tank with clean water, or wipe it down with a soft cloth to ensure the odors produced by stagnant or dirty water.

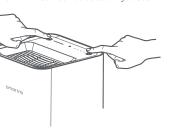

Note: If you frequently use the humidifier,

Usage

Resetting the Wi-Fi

If your phone is unable to connect to the purifier, press and hold both the Wi-Fi / Light button and the Power / Mode button for 5 seconds. Once you hear
