

Impact Statement 2022

#CreatedForMore

BREAKING CYCLES OF OPPRESSION

Though the Dominican Republic is a small island, it is third in the world for sex tourism. Our organization is painfully aware of the significance of this darkness each and every day as we provide rescue, refuge, and restoration to young girls who have been impacted.

As noted by the U.S Department of State, in their 2020 Trafficking in Persons Report: “The Dominican Republic is a destination for sex tourists primarily from North America and Europe for child sex trafficking. Sex trafficking of 15-to-17-year-old girls occurs in streets, in parks, and on beaches.”

SAFE HOMES

We have 3 residential homes now! Each is a space for our girls to find refuge and healing. In our homes, we love them as we do our own daughters.

OUTREACH

We serve 200 girls every week. This is our arm of prevention as we provide mentorship, discipleship and life skills in a safe place.

EMPLOYMENT

Our workshop provides refuge for women and stability for their families. It is so much more than economic empowerment - it is a place for community, healing, and growth.

RESCUING GIRLS AND EMPOWERING WOMEN IN THE DOMINICAN REPUBLIC.

SENDING THEM TO SCHOOL!

Education is one of our best weapons against exploitation and cycles of abuse. Many of our girls have been denied education and we work so hard to get them ready for school! Education truly opens doors and creates cycles of freedom and empowerment.

This is why we are SO thankful for all those who helped us send over 200 girls to school this year! We received donations of backpacks, school supplies, transportation, uniforms, tuition, including 1,200 notebooks!

Education is ALWAYS a good investment.

When we said that we want to open doors for our girls we truly mean ALL doors, which includes the doors to higher education and increased responsibilities. We offer a home for our girls so that they can learn how to do life on their own, with a helping hand.

They learn how to budget, apply for schools and jobs all while knowing that there is someone they can call for advice, mentorship and community. It is our privilege to provide this space for them to step into all the “firsts” of adult living as they reach for their dreams and goals.

WE
BOUGHT A
UNIVERSITY
HOME!

MENTORSHIP AND PREVENTION

Our outreach program serves on average 200 girls once a week. We provide them with a support they can lean on while they learn how to be leaders within their community.

Mentorship empowers relationship, community health and healing. This safe place also allows us to keep an eye out for potential cases where girls will need rescue. This year we will begin to meet every day working with entire family units. We are so excited about this increased opportunity to serve and love well!

SERVING GIRLS IN FOUR HOMES!

1. Ministry of Light

We serve 200 girls and their families in our first donated little home “the mansion on the hill” in the barrio where it all began.

2. Casa Luz y Esperanza

In this home we walk with girls from the moment of rescue until they are ready to enter adulthood.

3. University House

This is our newest home, purchased in 2022. In it we serve girls who are preparing for adulthood and their university experiences.

4. Casa de Paz

This enhanced security home is for girls who have received their rescue and need additional levels of protection and care.

WITH GRATITUDE

Thank you for learning about the important work we are doing to rescue girls and empower women.
