

Date of compilation: 11/21/2019 Version: 1

SECTION 1: IDENTIFICATION

1.1 GHS Product identifier: 19104 - SAFETY FLOOR

1.2 Recommended use of the chemical and restrictions on use:

Relevant uses: Acrylic paint

Uses advised against: All uses not specified in this section or in section 7.3

1.3 Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party:

Enco & Weco Manufacturing Corp. Baldorioty #43 00739 Cidra - Puerto Rico - Estados Unidos Phone.: +1-787-739-3751 - Fax: +1-787-739-2242 info@encomfg.com http://www.encopr.com

1.4 Emergency phone number: 1-800-424-9300

SECTION 2: HAZARD(S) IDENTIFICATION

2.1	Classification of the substance or mixture:				
1	29 CFR 1910.1200:				
	Classification of this product has been carried out in accordance with paragraph (d) of § 1910.1200.				
2.2	Carc. 1A: Carcinogenicity, Category 1A, H350 STOT RE 2: Specific target organ toxicity by inhalation, repeated exposure, Category 2, H373				
	29 CFR 1910.1200:				
	Danger				
	Hazard statements:				
	Carc. 1A: H350 - May cause cancer				
	STOT RE 2: H373 - May cause damage to organs through prolonged or repeated exposure (Inhalation) Precautionary statements:				
N	P101: If medical advice is needed, have product container or label at hand				
-	P101: If mealear advice is needed, have product container of laber at hand				
	P201: Obtain special instructions before use				
	P202: Do not handle until all safety precautions have been read and understood P260: Do not breathe dust/fume/gas/mist/vapours/spray				
	P308+P313: IF exposed or concerned: Get medical advice/attention				
	P314: Get medical advice/attention if you feel unwell				
	P501: Dispose of contents and / or their container according to the separated collection system used in your municipality Substances that contribute to the classification				
	Quartz (1 %< RCS < 10%); Titanium dioxide				
2.3	Other hazards which do not result in classification:				
	Non-applicable				

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

- 3.1 Substances:
- Non-applicable

```
3.2 Mixtures:
Chemical description: Acrylic copolymer in aqueous solution
Components:
```

Date of compilation: 11/21/2019 Version: 1

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS (continued)

Remaining components are non-hazardous and/or present at amounts below reportable limits. The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.Therefore, in accordance with Appendix D to § 1910.1200, the product contains:

	Concentration
	25 - <50 %
	10 - <25 %
	10 - <25 %
•	10 - <25 %
•	2.5 - <10 %
-	×

SECTION 4: FIRST-AID MEASURES

4.1 Description of necessary measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product.

By inhalation:

Remove the person affected from the area of exposure, provide with fresh air and keep at rest. In serious cases such as cardiorespiratory failure, artificial resuscitation techniques will be necessary (mouth to mouth resuscitation, cardiac massage, oxygen supply, etc.) requiring immediate medical assistance.

By skin contact:

In case of contact it is recommended to clean the affected area thoroughly with water and neutral soap. In case of modifications on the skin (stinging, redness, rashes, blisters,...), seek medical advice with this Safety data Sheet

By eye contact:

This product does not contain substances classified as hazardous for eye contact. Rinse eyes thoroughly for at least 15 minutes with lukewarm water, ensuring that the person affected does not rub or close their eyes.

By ingestion/aspiration:

In case of consumption, seek immediate medical assistance showing the SDS of this product.

4.2 Most important symptoms/effects, acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

4.3 Indication of immediate medical attention and special treatment needed, if necessary:

Non-applicable

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Suitable (and unsuitable) extinguishing media:

Product is non-flammable under normal conditions of storage, manipulation and use. In the case of inflammation as a result of improper manipulation, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems. IT IS NOT RECOMMENDED to use full jet water as an extinguishing agent.

5.2 Specific hazards arising from the chemical:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

5.3 Special protective equipment and precautions for fire-fighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and individual respiratory equipment. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) Additional provisions:

Date of compilation: 11/21/2019 Version: 1

SECTION 5: FIRE-FIGHTING MEASURES (continued)

As in any fire, prevent human exposure to fire, smoke, fumes or products of combustion. Only properly trained personnel should be involved in firefighting. Evacuate nonessential personnel from the fire area. Destroy any source of ignition. In case of fire, refrigerate the storage containers and tanks for products susceptible to inflammation. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Isolate leaks provided that there is no additional risk for the people performing this task. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Evacuate the area and keep out those who do not have protection.

6.2 Environmental precautions:

This product is not classified as hazardous to the environment. Keep product away from drains, surface and underground water.

6.3 Methods and materials for containment and cleaning up:

It is recommended:

Absorb the spillage using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. For any concern related to disposal consult section 13.

6.4 Reference to other sections:

See sections 8 and 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:

A.- Precautions for safe manipulation

Comply with the current standards 29 CFR 1910 Occupational Safety and Health Standards. Keep containers hermetically sealed. Control spills and residues, destroying them with safe methods (section 6). Avoid leakages from the container. Maintain order and cleanliness where dangerous products are used.

B.- Technical recommendations for the prevention of fires and explosions

Product is non-flammable under normal conditions of storage, manipulation and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that can affect flammable products. Consult section 10 for information on conditions and materials that should be avoided.

C.- Technical recommendations to prevent ergonomic and toxicological risks

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product (See subsection 6.3)

7.2 Conditions for safe storage, including any incompatibilities:

A Technical measures for	storage
Minimum Temp.:	41 ºF
Maximum Temp.:	86 ºF
Maximum time:	6 Months

B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

7.3 Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters:

Substances whose occupational exposure limits have to be monitored in the workplace

Date of compilation: 11/21/2019 Version: 1

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)

Identification	Er	Environmental limits		
Limestone	8-hour TWA PEL		5 mg/m³	
CAS: 1317-65-3	Ceiling Values - TWA PEL			
Titanium dioxide	8-hour TWA PEL		15 mg/m ³	
CAS: 13463-67-7	Ceiling Values - TWA PEL			

8.2 Appropriate engineering controls:

A	Individual	protection	measures,	such as	personal	protective e	equipment
---	------------	------------	-----------	---------	----------	--------------	-----------

Always provide effective general and, when necessary, local exhaust ventilation to maintain the ambient workplace atmosphere below the exposure limits.. For more information on Personal Protection Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For additional information see subsection 7.1. All information contained herein is a recommendation, the information on clothing performance must be combined with professional judgment, and a clear understanding of the clothing application, to provide the best protection to the worker. All chemical protective clothing use must be based on a hazard assessment to determine the risks for exposure to chemicals and other hazards. Conduct hazard assessments in accordance with 29 CFR 1910.132.

B.- Respiratory protection

-		Pictogram		PPE		R	emarks	
	с	Filter mask for gases and vapours Mandatory respiratory tract protection - Specific protection for the hands		Replace when there is a taste or smell of the contaminant inside the face mask. If the contaminant comes with warnings it is recommended to use isolation equipment. Use respirator in accordance with manufacturer 's use limitations and OSHA standard 1910.134 (29CFR)				
		Pictogram		PPE	1	R	emarks	
		Mandatory hand protection		ective gloves against minor risks	to th prote	ce gloves in case of any sign of a le product for professional /indus ection gloves. Use gloves in accor and OSHA stand	damage. For prolonged periods of exposure strial users, we recommend using chemical rdance with manufacturer 's use limitations ard 1910.138 (29CFR)	
			oility and	has therefore to be checked p			not be calculated in advance with	
1		Pictogram		PPE		R	emarks	
		Mandatory face protection	Panoramic glasses against splash/projections.		Clean daily and disinfect periodically according to the manufacturer's instructions. Use if there is a risk of splashing. Use this PPE in accordance with manufacturer's use limitations and OSHA standard 1910.133 (29CFR)			
	E	- Bodily protection						
		Pictogram		PPE		Remarks		
			Work clothing		Replace before any evidence of deterioration.

Date of compilation: 11/21/2019 Version: 1

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued)

Environmental exposure controls:

In accordance with the community legislation for the protection of the environment it is recommended to avoid environmental spillage of both the product and its container. For additional information see subsection 7.1.D

National volatile organic compound emission standards for consumer and commercial products:

V.O.C. (Supply):

0.16 % weight 2.05 kg/m³ (2.05 g/L)

V.O.C. density at 68 °F:

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1	Information on basic physical and chemical properties:				
	For complete information see the product datash	neet.			
	Appearance: Physical state at 68 °F:	Liquid			
	Appearance:	Viscous			
	Color:	White			
1	Odor:	Ammoniacal			
	Odour threshold:	Non-applicable *			
	Volatility:				
	Boiling point at atmospheric pressure:	215 °F			
	Vapour pressure at 68 °F:	2344 Pa			
	Vapour pressure at 122 °F:	12347.25 Pa (12.35 kPa)			
	Evaporation rate at 68 °F:	Non-applicable *			
	Product description:				
	Density at 68 °F:	1301.4 kg/m ³			
	Relative density at 68 °F:	1.301			
	Dynamic viscosity at 68 °F:	Non-applicable *			
	Kinematic viscosity at 68 °F:	Non-applicable *			
100	Kinematic viscosity at 104 °F:	>20.5 cSt			
	Concentration:	Non-applicable *			
	pH:	>8.5			
	Vapour density at 68 °F:	Non-applicable *			
	Partition coefficient n-octanol/water 68 °F:	Non-applicable *			
	Solubility in water at 68 °F:	Non-applicable *			
	Solubility properties:	Non-applicable *			
	Decomposition temperature:	Non-applicable *			
	Melting point/freezing point:	Non-applicable *			
	Explosive properties:	Non-applicable *			
	Oxidising properties:	Non-applicable *			
	Flammability:				
	Flash Point:	Non Flammable (>199.4 °F)			
	Flammability (solid, gas):	Non-applicable *			
	Autoignition temperature:	739 °F			
	Lower flammability limit:	Non-applicable *			
	Upper flammability limit:	Non-applicable *			
	Explosive:				
	Not relevant due to the nature of the product, not providin	Non-applicable * ng information property of its hazards.			

Date of compilation: 11/21/2019 Version: 1

SECT	SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES (continued)					
	Lower explosive inflict					
	Upper explosive limit:	Non-applicable *				
9.2	9.2 Other information:					
	Surface tension at 68 °F:	Non-applicable *				
	Refraction index: Non-applicable *					
	*Not relevant due to the nature of the product, not providing information property of its hazards.					

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.

10.2 Chemical stability:

Chemically stable under the conditions of storage, handling and use.

10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

Shock and friction	Contact with air	Increase in temperature	Sunlight	Humidity
Not applicable	Not applicable	Not applicable	Not applicable	Not applicable

10.5 Incompatible materials:

Acids	Water	Oxidising materials	Combustible materials	Others
Avoid strong acids	Not applicable	Not applicable	Not applicable	Avoid alkalis or strong bases

10.6 Hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO2), carbon monoxide and other organic compounds.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:

The experimental information related to the toxicological properties of the product itself is not available

Dangerous health implications:

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits, it may result in adverse effects on health depending on the means of exposure:

- A- Ingestion (acute effect):
 - Acute toxicity : Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for consumption. For more information see section 3.
 - Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3.
- B- Inhalation (acute effect):
 - Acute toxicity : Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for inhalation. For more information see section 3.
 - Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3.
- C- Contact with the skin and the eyes (acute effect):

- Contact with the skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for skin contact. For more information see section 3.

- Contact with the eyes: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3.

D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):

Date of compilation: 11/21/2019 Version: 1

SECTION 11: TOXICOLOGICAL INFORMATION (continued) - Carcinogenicity: Exposure to this product can cause cancer. For more specific information on the possible health effects see section 2. IARC: Titanium dioxide (2B); Silicon dioxide (RCS < 1%) (3); Quartz (RCS < 1%) (1); Quartz (1 % < RCS < 10%) (1) - Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. E- Sensitizing effects: Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous with sensitising effects. For more information see section 3. Cutaneous: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. F- Specific target organ toxicity (STOT) - single exposure: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. G- Specific target organ toxicity (STOT)-repeated exposure: - Specific target organ toxicity (STOT)-repeated exposure: Exposure in high concentration can cause a breakdown in the central nervous system causing headache, dizziness, vertigo, nausea, vomiting, confusion, and in serious cases, loss of consciousness Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. H- Aspiration hazard: Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect. For more information see section 3. Other information: Non-applicable Specific toxicology information on the substances: Identification Acute toxicity Genus Titanium dioxide LD50 oral 10000 mg/kg Rat 10000 mg/kg CAS: 13463-67-7 LD50 dermal Rabbit LC50 inhalation Non-applicable 5100 mg/kg Rat Limestone LD50 oral CAS: 1317-65-3 LD50 dermal Non-applicable LC50 inhalation Non-applicable

SECTION 12: ECOLOGICAL INFORMATION

The experimental information related to the eco-toxicological properties of the product itself is not available

12.1 Ecotoxicity (aquatic and terrestrial, where available):

Not available

12.2 Persistence and degradability:

Not available

12.3 Bioaccumulative potential: Not available

12.4 Mobility in soil: Not available

- **12.5 Results of PBT and vPvB assessment:** Non-applicable
- 12.6 Other adverse effects:

Not described

Date of compilation: 11/21/2019 Version: 1

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Disposal methods:

Waste management (disposal and evaluation):

Consult the authorized waste service manager on the assessment and disposal operations. In case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. We do not recommended disposal down the drain. See epigraph 6.2.

Regulations related to waste management:

Legislation related to waste management:

40 CFR Part 261- IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

SECTION 14: TRANSPORT INFORMATION

This product is not regulated for transport.

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations specific for the product in question: SARA Title III - Toxic Chemical Release Inventory Reporting (Section 313): Non-applicable California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986): Titanium dioxide The Toxic Substances Control Act (TSCA) : Water ; Limestone ; Quartz (1 % < RCS < 10%) ; Titanium dioxide Massachusetts RTK - Substance List: Non-applicable New Jersey Worker and Community Right-to-Know Act: Limestone ; Quartz (1 % < RCS < 10%) ; Titanium dioxide New York RTK - Substance list: Titanium dioxide Pennsylvania Worker and Community Right-to-Know Law: Limestone ; Quartz (1 % < RCS < 10%) ; Titanium dioxide CANADA-Domestic Substances List (DSL): Water ; Quartz (1 %< RCS < 10%) ; Titanium dioxide CANADA-Non-Domestic Substances List (NDSL): Limestone NTP (National Toxicology Program): Non-applicable Minnesota - Hazardous substances ERTK: Limestone ; Quartz (1 % < RCS < 10%) ; Titanium dioxide Rhode Island - Hazardous substances RTK: Limestone ; Quartz (1 % < RCS < 10%) ; Titanium dioxide OSHA Specifically Regulated Substances (29 CFR 1910.1001-1096): Quartz (1 % < RCS < 10%) Hazardous substances release notification under CERCLA sections 102-103 (40 CFR Part 302): Non-applicable Specific provisions in terms of protecting people or the environment: It is recommended to use the information included in this safety data sheet as data used in a risk evaluation of the local circumstances in order to establish the necessary risk prevention measures for the manipulation, use, storage and disposal of this product. Other legislation: The Toxic Substances Control Act (TSCA) Occupational Safety and Health Standards (1910 Subpart Z - Toxic and Hazardous Substances) SECTION 16: OTHER INFORMATION Legislation related to safety data sheets:

This safety data sheet has been designed in accordance with Appendix d to §1910.1200 - Safety data sheets

Texts of the legislative phrases mentioned in section 2:

H350: May cause cancer

H373: May cause damage to organs through prolonged or repeated exposure (Inhalation)

Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

29 CFR 1910.1200:

Carc. 1A: H350 - May cause cancer

Carc. 2: H351 - Suspected of causing cancer

STOT RE 2: H373 - May cause damage to organs through prolonged or repeated exposure (Inhalation)

Advice related to training:

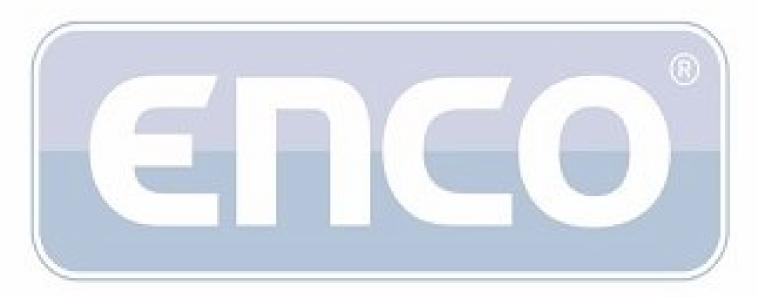

Date of compilation: 11/21/2019 Version: 1

SECTION 16: OTHER INFORMATION (continued)

Minimal training is recommended to prevent industrial risks for staff using this product, in order to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product. Principal bibliographical sources: Occupational Safety & Health Administration (OSHA). Abbreviations and acronyms: IMDG: International maritime dangerous goods code IATA: International Air Transport Association ICAO: International Civil Aviation Organisation

- COD: Chemical Oxygen Demand
- BOD5: 5-day biochemical oxygen demand BCF: Bioconcentration factor
- LD50: Lethal Dose 50
- CL50: Lethal Concentration 50
- EC50: Effective concentration 50
- Log-POW: Octanol-water partition coefficient
- Koc: Partition coefficient of organic carbon

Manufacturer Disclaimer: The information contained in this safety date sheet ("SDS") is based on sources, technical knowledge and current legislation. Furthermore, is based on data believed to be accurate; thus, the company does not assume any liability for its accuracy. The information provided herein cannot be considered a guarantee of the properties of this product and the same is simply a description of the security requirements. The use, occupational methodology and/or conditions for users of this product are not within our awareness or control. It is ultimately the responsibility of the user(s) to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information of this SDS only refers to this product, which should not be used for purposes other than those specified. Finally, the manner in which this product is used and whether there is any infringement of patents is the sole responsibility of the user(s).
