

## RING SIZE GUIDE

This guide is to be used with an existing ring to find out your ring size.  
For greatest accuracy use a ring with a similar band width and style to that you wish to buy.

### Step 1

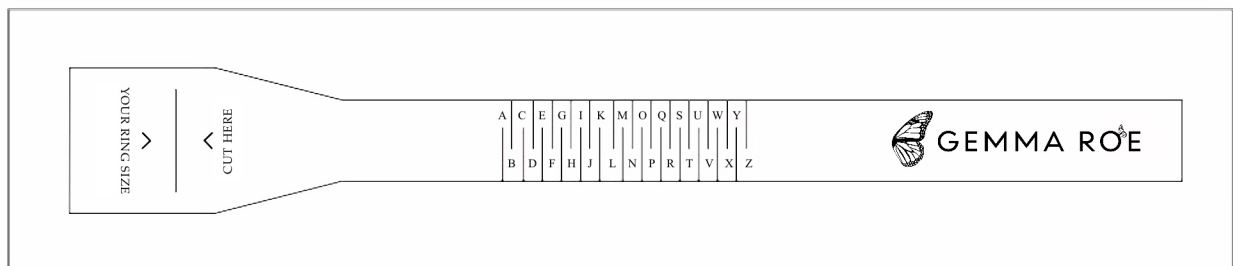

Print this page on card and set the page to print at 100% - ensuring that the page scaling is set to 'none'. You should find this in 'Page Set Up'. Check your print out is accurate by comparing the measurements below with a ruler. It should be exactly 5cm.

### Step 2

Cut around the Finger Gauge Outline below. Then cut the slit on the left-hand side as indicated between the two arrows.

Ensure the card can slide up and down your finger easily. A ring will grip your finger more than the card.

# GEMMA ROE

## Step 3

Use a ring that fits the finger you wish to size. Place your ring on the chart below and match the inside edge of the ring until it touches the circle nearest in size.

## Step 4

The letter that fits best within the circle, is your ring size.  
If the ring falls somewhere between two sizes you should always opt for the larger size.
