### INSTALLATION INSTRUCTIONS

#### Step 10:

Before snapping the panel into place test the system and make sure your wiring is correct. With the key in the on position turn on system arm, the solenoids should click. If they don't something is wired wrong. If they do click then turn on the heater and see if it gets warm, then try your purge. Once everything is working correctly move to the next step.

#### Step 11:

Place the switch panel over the ashtray assembly and press it down, the tabs on the side will snap into place and keep your switch panel secure.

#### Step 12:

Reinstall the console cover by snapping it back in place and securing it with the 2 Torx screws.
