

Robust and vandal resistant rack made from quality Marine Grade 316 Steel, specifically for outdoor use.

**SUITABLE FOR:
Road, hybrid, commuter bikes, some mountain bikes and BMX without fenders/mudguards.**

This new rack is extremely robust, will not rust, is vandal resistant and built to withstand the elements with little or no maintenance required while catering for a wide variety of commonly used bikes.

Loading and unloading is easy, requiring no lifting and the Marine Grade Steel allows for bikes to be safely and securely locked while parked outside and in public.

This new rack is the ideal commercial solution for optimising space and parking multiple bikes close together.

Low maintenance, weather proof and vandal resistant.

IT'S EASY!
Just balance your bike on the back wheel and push it into the rack.

SAVES SPACE

Get bikes off the floor.

EASY INSTALL

Instructions are easy to follow making installation simple.

SAFE & SECURE

Lock up your bike easily with a conventional lock.
