# My day

Hello, I'm Josh. And this is my day.

I get up at 6.15 in the morning. After the toilet I go to the bathroom. I wash my face and hands. I have breakfast in the kitchen, usually some toast and butter, rolls and jam, a hot dog, and tea or milk.

Then I put on my clothes – jeans, a jumper, a jacket, socks and shoes. I go to school on foot. I don't live far from school. We have five or six lessons a day.

After school we have lunch at the school canteen. The food is good but my mum's cooking is better. When I come home in the afternoon, I do my homework, play games, watch cartoons, draw, listen to music, or just relax. In the evening we have dinner. # Staying healthy

If we want to stay healthy, we must have good habits. We must wash our hands before eating, or after using the toilet. Having clean hands is very important. And we must wash the fruits that we want to eat. Use a tissue if you have a runny nose, or if you sneeze.

We shouldn't eat too many sweets, red meat, or fatty foods. We shouldn't eat at MacDonald's too often. We should eat brown bread or rolls, lots of fruit and vegetables, salads, and dairy products – milk, butter, yoghurt, and cheese.

Exercise and fresh air are also very important! Spend a few minutes outdoors every day and do exercise – go to the gym, run, swim, dance, or play ball games. Remember that doing sports is fun!

And one final thing – don't worry and don't be sad. A happy soul keeps your body healthy as well.

## QUESTIONS:

1. When should we wash our hands?

# At the dentist's

Nancy is afraid of the dentist. She doesn't like visiting her at all. But we all must go to the dentist for a regular check-up.

The dentist checks our teeth and shows us how to brush them properly. She also tells us what's bad for our teeth – sweets, cakes, chocolate, or lollipops. Fruit, vegetables, and milk products are good for us.

When we have a bad tooth, the dentist drills and fills it. It's a little painful. But when a tooth is so bad she needs to pull it out, it really hurts. Nancy cries when her tooth is pulled out. But today she isn't crying – all her teeth are ok. She has a nice smile.

The dentist gives her a little bag with a toothbrush and toothpaste.

"These are yours, Nancy. Use them regularly to keep your teeth healthy!"

"Thank you, doctor," says Nancy. This visit wasn't so bad...
