

NIGIRI MAKER

Commercial Sushi Ball Forming Machine

Easy to Operate, Compact, Cost Efficient and Reliable

ASM410A

Eliminate Labor-Intensive and Time-Consuming Work.

- **2,400** rice balls can be produced per hour.
- **Compact** but more **Functionable**.
- **Simple** function makes your work **Easy and Fast**.
- Changing size of rice balls is **Easy**. (with optional roller kit)
- Adoption of a special resin rice hopper keeps Sushi rice at **Ideal Temperature**.
- Daily maintenance is **Simple**.

Ideal Mass-Production with faster and simple operations

The higher performance and adjustable functions offers you more flexibility and satisfactions.

Multi-Forming or Single-Forming

Multi-Forming

Single-Forming

ASM410A has two main functions; multi-forming and single-forming. You can switch them easily depend on your needs. This prevents from over making.

CONFORMS TO UL STD 763:
NSF STD 8
CERTIFIED TO CAN/CSSA C22.2 STD No.195

– Speedy

The machine can produce consistent and uniform rice balls at a rate of 2,400 per hour, without crushing or compacting the delicate rice.

– Higher Usability & Stability

To form a sushi rice ball, skill and sense of expert Sushi chef are needed. This ASM410A can consistently produce perfect formed rice balls without changing their size and weight.

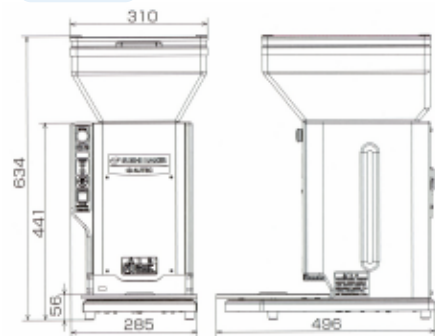

– Easy Operation

Enable to change the softness of Sushi rice balls by adjusting rice amount volume on the control panel. Size of rice balls can be chaged(with optional forming roller kit).

– Compact & Easy Maintenance

Daily maintenance after operation is easy because of its compactness and simple structure.
