

NOTE

1. Distance between Wall and Kitchen Appliance

Warning!

You must keep a distance from Combustible Wall, otherwise **fire will come out**.

Distance between Combustible Wall and Kitchen Appliance			
Above	Side	Behind	In Front
Hood	more than 20 cm	more than 15 cm	

- ✘ If you don't know the material of wall, you need to regard it as Combustible.
- ✘ You must make a maintenance space even if the wall is not Combustibles.

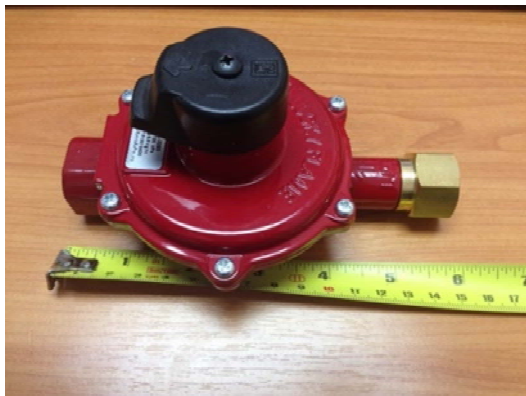

NOTE

2. Gas Pressure

Warning!

You must adjust Primary Gas Pressure of equipment to proper value (see below table), otherwise **gas leaking** and **incomplete combustion** will be happened.

Gas Type	Town Gas 5C	Town Gas 13A	LPG
Proper Value of Gas Pressure (primary side)	1.0 kPa	2.0 kPa	2.8 kPa

✘ Above are regulators to adjust Gas Pressure.
