STANDARD FIXING OF FASTENERS AND SYMBOLS

When assembling the model, don't rush, avoid pointing details at yours or anyone else's face. If one of the parts has a sharp edge, please file it down. Use pliers and additional tools to assemble the model. Each kit contains a cloth for wiping and polishing the model once it's assembled.

If there are no additional designations, use the standard fixing method

Use pliers to bend the fasteners

Bend the eyelet 90°

Bend the ears 90°

Twist the eyelet 45°

By moving of the front rollers, tighten the tracks so that they sag by 5-8mm (0.2-0.3"), and insert the stoppers into the desired position.

- ! 1. Press the stopper all the way
- 2. Open the cover, start the mechanism clockwise
- 3. Close the cover, press the stopper until it stops

Model name:

NIMBLE FIGHTER

FT-17 is one of the best tanks of the First World War, the world's first serial French light tank, the layout of which is called classic (control compartment – in front, combat with a circular rotation tower – in the center, and motor- transmission – in the rear). Designed as an immediate infantry support tank in 1916-1917 by the renowned car manufacturer Louis Renault. By November 11, 1918, 3177 Renault tanks had been built. In numerous variants, the FT-17 was in service with more than 20 states and participated in various military conflicts.

Designed in Ukraine

 Made in China

Product number: SKU010

Product material: Stainless steel

Number of metal sheets: 4 pcs

Finish product size: L7.09" × W3.27" × H2.91" (L18cm × W8,3m × H7,4cm)

WARNING!

The product contains small and/or sharp parts. Not suitable for children under 3 years of age.

In order to avoid possible injury from sharp edges, please carefully discard the metal sheet after parts have been removed. This product is not a toy. Keep out of reach of children.

Conforms to CPSIA and CE standards. The product complies with the requirements of EN 71-1,2,3; ASTM F963, REACH, AS/NZS 8124, GB 6675
