WARNING! PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE ASSEMBLY AND USE

When assembling the model, don't rush, avoid pointing details at yours or anyone else's face. If one of the parts has a sharp edge, please file it down. Use pliers and additional tools to assemble the model. Each kit contains a cloth for wiping and polishing the model once it's assembled. If needed, you may choose to apply a small amount of siliconbased grease to the spring and the mechanism; however, this is not a requirement for the mechanism to function properly. The mechanism will perform at its best in the absence of excessive friction or excessive play of its parts

WARNING! Product contains small parts and sharp parts. Not suitable for children under 3 years of age

You can install the LED candle inside the tower — 20×40mm or similar (not included).

BATTERIES CHANGING

To change the battery, lift and remove the watch frame (1), take out the watch (2), replace the battery, insert the watch (3) and the frame (4)

Model name:

THE GREAT BELL

Construction of the tower began on 28 September 1843. Elizabeth Tower, originally referred to as the Clock Tower, but more popularly known as Big Ben, was raised as a part of Charles Barry's design for a new Palace of Westminster, after the old palace was largely destroyed by fire on 16 October 1834. Although Barry was the chief architect of the neo-gothic palace, he turned to Augustus Pugin for the design of the Clock Tower, which resembles earlier Pugin designs, including one for Scarsbrick Hall in Lancashire.

Designed in Ukraine

Made in China

Product number: SKU073

Product material: Stainless steel

Number of metal sheets: 4 pcs

Finish product size: L11.34" x W3.19" x H3.19" (L28,8cm x W8,1cm x H8,1cm)

⚠️ WARNING!

The product contains small and/or sharp parts. Not suitable for children under 3 years of age. Cut/remove the band that keeps the spring in place ONLY WITHIN the spring chamber/container. DO NOT cut the restraining band outside the assembled spring chamber, as the spring will unwind with force.

In order to avoid possible injury from sharp edges, please carefully discard the metal sheet after parts have been removed. This product is not a toy. Keep out of reach of children.

Conforms to CPSIA and CE standards. The product complies with the requirements of EN 71-1,2,3; ASTM F963, REACH, AS/NZS 8124, GB 6675
