

Olivirex®

HIGH-POTENCY OLIVE LEAF FORMULA

SUPPORTS MICROBIAL & IMMUNE BALANCE*

AVAILABLE IN 60 COUNT CAPSULES

Throughout the ages, Olive Leaf has been trusted by healers. It naturally addresses unwanted organisms, bringing additional force to oppose biofilms and support immune function.* Body and plant unite in action to create resilience. That's why Olive Leaf Extract is the main ingredient in Olivirex®.

Additional select botanicals open channels to support the kidney, lymphatics, and liver – driving the Olive Leaf where the body needs it most while ushering out toxins.

For maintaining seasonal wellness, use Olivirex® in combination with Biocidin®TS Throat Spray.* When addressing long-standing microbial health challenges, use the combined strength of Olivirex® and Biocidin®.*

DEFEND

Defend. Optimize Resilience. In the face of novel microbes, or if the body is weakened, we need to call in the troops. Humans have relied on plants for eons to balance and reinforce immune activity. To rouse the body's vital force. To prime the immune pump for opposition. Together, the body and botanicals bolster defenses to co-create optimal resilience.

Benefits

- Broad-spectrum support for addressing unwanted microorganisms*
- Supports seasonal wellness, especially when combined with Biocidin®TS Throat Spray*
- Supports body comfort*
- Activates drainage pathways through liver and kidneys to assist in detoxification*

Features

- Professional-grade ingredients
- High-potency Olive Leaf Extract, 18% oleuropein
- Contains a synergistic blend of additional botanicals
- Contains adaptogenic herbs
- Concurrent use with Biocidin® often recommended for longstanding or complex health challenges*

[†]Daily value not established.

Other Ingredients: vegetable cellulose, vegetable capsule

[‡]Organic Ingredient

This product is made without dairy, gluten, soy, corn, animal products, artificial coloring or flavoring.

Ingredient Mechanisms of Action

Scientific literature shows that the individual botanicals in Olivirex[®] have multiple activities. Below are highlights that may account for the outcomes seen in a clinical setting.

Supports Healthy Virome and Microbial Balance –

Olive Leaf is well known for virome and microbial balance, but many other botanicals in Olivirex[®] also support this important function. Bladderwrack, Dandelion, Garlic, Goldenseal, Milk Thistle, Noni, and St. John's Wort also play a role.

Immunomodulatory – Olive Leaf, Cordyceps, Noni fruit, and American Ginseng all support a healthy immune response.

Activates Drainage Pathways – Healthy liver and kidney function are essential for managing the flow of toxins, including those produced by unfavorable microbes in the body. Bladderwrack, Dandelion, and Uva Ursi have diuretic action that naturally supports these pathways, easing detoxification and helping to prevent die-off reactions.

Hepatoprotective – Milk Thistle and Dandelion are well known and researched to support healthy liver function.

Supports Healthy Inflammatory Response –

Almost all of the botanicals in this formula are able to positively impact inflammatory response by modulating cytokine activity.

Adaptogen – American Ginseng and Cordyceps promote both healthy adrenals and the HPA axis.
