

Screen Porch Planning Worksheet

NAME _____

1 square : 1 foot | See Page 2 for Blank Grid

PHONE _____

Sketch an elevation of each side of your porch. Note the horizontals and verticals. How many verticals are above the rail? How many are below?
Note posts and rail sizes — 4x4 or 2x4. Depending on your screening system of choice, the exact materials and components will vary.

Blank grid area for sketching porch elevations.

Calculate the materials you will need at www.screenporchsolutions.ca/resources
