

Activité de numération et de coloriage.

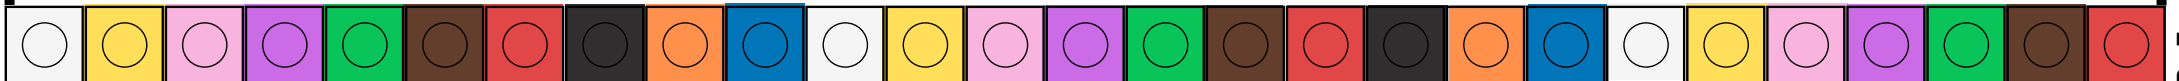

De 1 à 10

Compter

Colorier

Ces fiches d'activités mathématiques ludiques s'utilisent avec les petits cubes Mathlink.

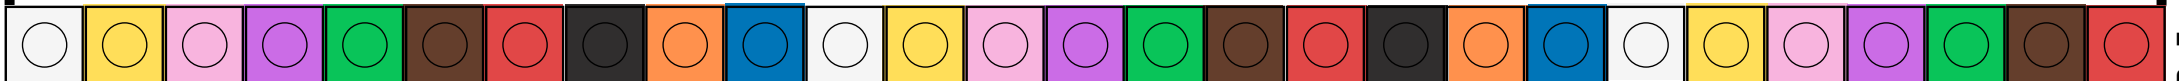

En plus de permettre à votre enfant d'apprendre à représenter les nombres et leur valeur, elles pourront aussi lui permettre d'apprendre (ou de réviser) les couleurs !

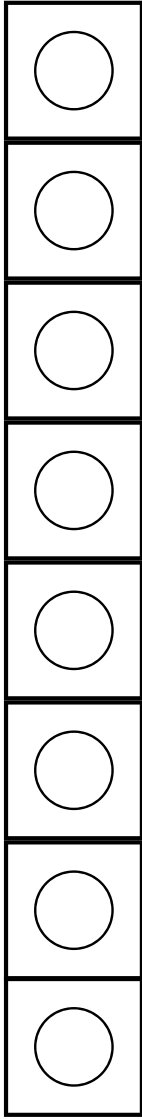

Pour les scripteurs, ils pourront également s'exercer à écrire en lettres chaque nombre.

Nous vous conseillons d'imprimer ces fiches en couleur et de les plastifier ou les glisser dans une pochette plastique transparente. Ainsi, votre enfant pourra s'exercer au feutre effaçable autant de fois qu'il le souhaite !

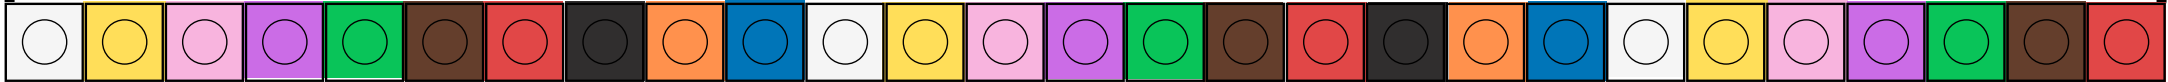

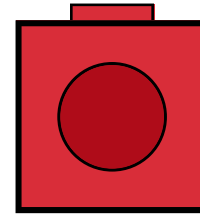

En vous souhaitant une très bonne activité avec votre enfant.

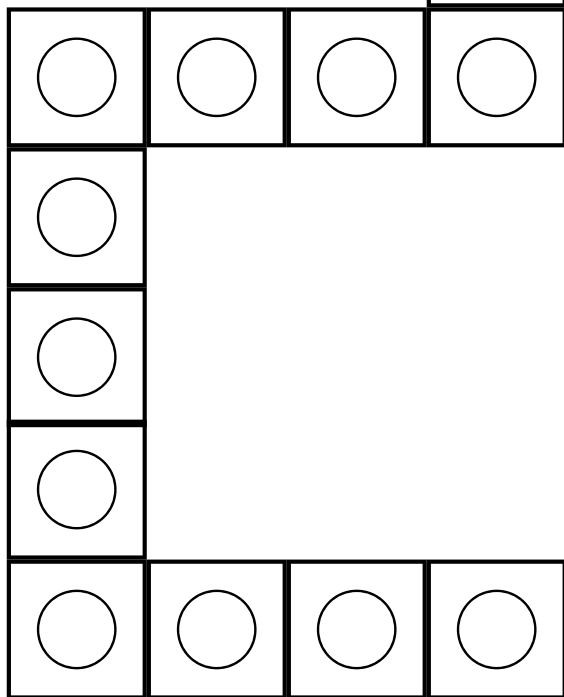

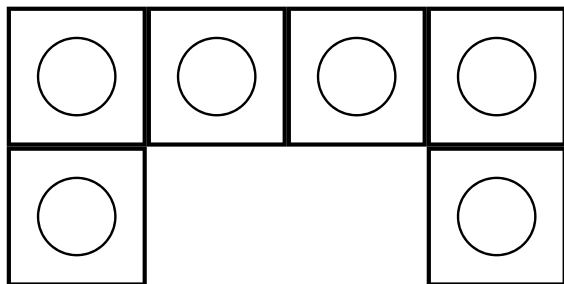

L'équipe Eveil Montessori.
