

1. Multi-Functions
2. Professional & Reliable
3. Efficiency & Safety
4. Multi-language Support

1. General Specifications

Car Battery Tester, 12V Automotive Battery Load Tester. Accurate results in milliseconds compared to other tester. Provides check the Alternator's charging and Starter's cranking conditions. It is maintenance free and no internal batteries required.

2. Feature

1. Provides check the Alternator 's charging and Starter's cranking conditions . It is maintenance free and no internal batteries required.
2. Vehicle charging system test - load voltage, unloaded voltage, ripple status and charging system status.
3. Vehicle cranking system test - cranking time , voltage and status.
4. Powers up when connected to the battery posts during testing.
5. Test results based on JIS , EN , DIN , SAE and IEC Standards.
6. Conductance correlates directly to the battery capacity.
7. Provides unique indication of battery conditions.
8. Able to test condition of discharged battery.
9. Never discharges or drain the battery.
10. Test batteries on and off the vehicle.
11. Consistent and repeatable results.
12. Large easy to read LCD display.
13. Passive testing method is safe.
14. Simple and easy to use.
15. Battery Life Analysis.

3. Technical Specifications

Voltage	12V
Power	8w
Material Type	Metal and Plastic
External Testing Certification	CE
Dimensions	15 x 5 x 10 cm
Weight	400g
