

### 1. General Specifications

This is a kind of quality 3in1 electric hammer, multifunctional design, it can be used as electric hammer, electric drill and electric pick. Electric hammer function: punching holes on the wall, ground and stone. Electric drill function: drilling holes on the wood, ceramic tile and metal-glass. Electric pick function: make a slot, demolishing buildings and etc.

### 2. Features

1. Multifunction, all-in-one design, it can be used as electric hammer, electric drill and electric pick.
2. Electric hammer function : punching holes on the wall , ground and stone.
3. Electric drill function: drilling holes on the wood, ceramic tile and metal-glass.
4. Electric pick function:make a slot,demolishing buildings&etc.
5. Equipped with adjustment function , support adjust the direction of accessories while install it.
6. Forward & reverse rotation adjustable, help improving your working efficiency.
7. Ergonomic non - slip handle design, easy to grip and with comfortable hand feeling, safe and labor-saving.
8. Reserved several ventilation cooling holes , efficient heat dissipation, will not hot for working long time.
9. Comes with two pcs large capacity battery , overcurrent, overvoltage , charge , discharge , and over temperature are protected.

### 3. Technical Specifications

No-Load Speed	1200rpm
Rated Input Power	21V
Hammer Type	Rotary Hammer
Frequency	50HZ
Power Source	DC
Rated Voltage	21V
Max. Drilling Diameter	28mm
Drilling Wood	28mm
Drilling Concrete	26mm
Drilling Steel	12mm
Usage	Commercial Manufacture
Weight	6kg

**SET6****two battery**
