

1. Precision measurement.
2. USB charging.
3. Two-way 40 meters infrared.
4. Powerful magnetic attraction.
5. Digital display reading.
6. IP54 waterproof and dustproof.

### 1. General Specifications

This 3 in1 measuring tool is great for precision angle measurements, or set angles, check relative angles, and can be used as a digital level. It is not only useful for carpentry projects, but also have a lot of other uses around the house, like hanging pictures on the wall, setting decorative bricks in the garden, etc. The nano-tape can be attached to any surface. If the tape loses its adhesion, you can wash it with water and then it will become a piece of new tape.

### 2. Features

1. Unique Laser Design: The unique feature of LOMVUM LASER Digital Protractor is the TWO side LASER design! You can turn on both lasers on the left & right side when doing the measuring, which make the measurement more accurate!
2. Convenient to Carry: LOMVUM Laser Digital Protractor is pocket- size and lightweight.
3. Upside down function: When the inclinometer is turned upside down, the angle reading on the LCD will automatically flip up and easy to be read.
4. Built - in rechargeable Battery: LOMVUM Laser Digital Protractor is USB Rechargeable. We adopted 3.7 v 300 mah lithium battery which is Eco - friendly and recyclable. You can charge the inclinometer with a USB cable anytime. To save the power, the inclinometer will shut down in 5 minutes automatically.
5. Magnet Designed : Magnet Design allows LOMVUM Laser Protractor to be attached to any metal surface.
6. 360 ° Measurement: 360°angle measurement or slope measurement in 4 directions. LOMVUM digital angle tool can measure in absolute & relative measurements for determining the exact angle or the difference between two angles.

### 3. Technical Specifications

Measuring Range	4 x 90° / 2 x 180°
Display Resolution	0.001°
Accuracy	±0.2
Angle / Slope Conversion	Yes
Switch Between Multiple Units	° / %
Data Retention	Yes
Screen	1.44 inchscreen
Relative/Absolute Measurement	Yes
Repeatability	0.1°
Automatic Shut-down	5 minutes
Protection Level	IP54
Work Time	2 hours
Operating Temperature	0~50 °C
Battery	3.7v lithium battery (300mah)
Dimensions	30.8 x 60.6 x 60.6 mm
Weight	106g
