

1. High frequency shock.
2. All copper motor.
3. 10c battery.
4. 90-minute fast charger.
5. Lightweight and portable.
6. One machine for two uses.

1. General Specifications

The Electric Rotary Hammer Drill Demolition Hammer is designed with a high performance. The drill can complete a wide range of applications to help you power through the toughest of jobs.

2. Feature

1. The machine is in combination with the functions of the electric hammer and electric drill. Turn the switch to transform functions.
2. Adjustable modes: 2 modes:
 - Flat Drill Mode.
 - Hammer Mode.
3. Damping auxiliary handle and ergonomic handle make it easier to use
4. For drilling metal, wood, plastic, ceramic tiles, brick walls, granites, and screw twisting.
5. Ventilation holes prevent the electric hammer from being overheated.
6. The handle is wrapped up with rubber to prevent slipping.

3. Technical Specifications

Power Supply	12V
No-load Speed	0-900r / min
Impact Rate	0-4800r / min
Impact Energy	1.0 J
Drilling Capacity	Wood -10mm Concrete - 10mm Steel - 8mm
Operating System	SDS Plus
Rated Voltage	220V
Frequency	50/60Hz
Rated Input Power	1300W
Hammer Capacity	BREAK Concrete/Brick/Stone/ Asphalt Pavement
Material	40cr Steel
Max Hammer Rate (min)	3800 (Professional) 4800 (industrial)
Dimensions	480mm x 240mm x 150mm
