

1. Area measurement
2. Volume measurement
3. Pythagoreans theorem
4. Linear measurement

1. General Specifications

LOMVUM Laser Tape Measure 2- in -1, laser measurement 60M silent laser range finder USB rechargeable color LCD display, measuring distance, IP54 waterproof, tape length 5M , Nylon Coating for DIY. We have added the functionality of a laser rangefinder to the traditionally measured tape measure so that you can easily solve measurement problems regardless of your environment.

2. Feature

1. You can use a common tape measure for the application scene , or you can measure longer and inconvenient distances with a laser rangefinder.
2. Just press the laser on the object to be tested & press the button, and you can make measurements immediately. Anyone can measure easily.
3. Distance, area measurement If it is a laser rangefinder, measure with a laser rangefinder These rangefinders not only provide distance measurement capabilities to meet multiple measurement needs , but also provide automatic area calculations.
4. There is also a tape measure that allows you to easily measure small or irregular things. The combination of the tape measure and the laser rangefinder has been a very easy task.
5. Complete with Volume tape laser range finder , USB charging cable and User's manual.

3. Technical Specifications

| | |
|-------------------------|-------------------------------------|
| Laser Measurement Range | 0.05-60 m |
| Accuracy | ±2mm |
| Measuring Units | m/in/ft |
| Laser Class | Class 2 |
| Laser Type | <1 mW, 630-670 nm |
| Range of Tape Measure | 0.01-5m / 16ft |
| Measurement Accuracy | ± 1.5 mm/±1/16 inch |
| Display | Large LCD Backlit |
| Auto-off Function | Laser-30 seconds Power-3 minutes |
| IP Rating | IP54 |
| Battery Type | Li-ion 3.7V = 200mAh |
| Dimensions | 84.7 x 74 x 42.3 mm |
| Weight | 280g |
