*Last October we [reviewed the children's book The Adventures Of Mimi And Moto The Motorcycle Monkeys](#). Today marks the second edition of Mimi and Moto. The newest version receives a few updates, some pointed out from our review (it's nice to know someone is paying attention). If you're wanting a way to introduce motorcycling into a child's life, this book is a great way to get started.*

## Mimi and Moto: Second Printing

**February 24, 2017** – We wanted everyone to know we made the following changes:

-On the **sportbike spread**, we removed the solid yellow line and the road is now a one way street. Moto's knee is no longer crossing a solid yellow line.

-On the **sidecar spread**, Mimi is now sitting down in the sidecar and we also removed the extra 4th wheel.

Additional changes that we made:

-The font on the **inside title page** has been changed and improved.

-The **last spread** of the book now includes the text THE END at the bottom right hand corner of the page.

-We changed the language on the **back cover** to read A CHILDREN'S MOTORCYCLE PICTURE BOOK FOR AGES 1 & UP AND EARLY READERS.
