

**CORE COMPETENCIES**

**Core Statement:** Vyper Industrial provides American-made shop equipment for government entities seeking to eliminate safety risks related to high failure rate products. Vyper delivers quality products which continue to relieve budget spending for the following industries; aviation/aerospace, general maintenance and auto repair, military/special operations, welding/fabrication, and production/assembly.

**Core Competencies**

- Innovate and design high quality, dependable shop equipment to support organizational key objectives.
- Ensure the safety of trade personnel by providing them with industrial shop equipment capable of handling diverse working environments.
- Improve ergonomics preventing injuries related to repetitive motion, increase efficiency, and improve lost production time.

**PAST PERFORMANCE / REFERENCES**

**US Coast Guard**  
**Naval Air Station Ventura**  
**Point Mugu, CA**

**US Navy**  
**Expeditionary Maintenance Center Two**  
**Gulfport, MS**

**Wright-Patterson AFB**  
**WPAFB, OH**

**DIFFERENTIATORS**

- Unique lineup of American-made industrial shop equipment.
- 4" polyurethane casters allow users to roll over cracks, debris, and reduce injuries from tipping.
- 5-leg steel center support system with a 400lb weight capacity.
- Spark & fire resistant industrial vinyl for NFPA welding standards.
- Ergonomic foot rail and backrest to reduce fatigue.
- State-of-the-art height adjustment systems moving away from high failure hydraulic systems.

**COMPANY DATA**

**Business Name:** Vyper Engineering LLC  
 DBA "Vyper Industrial"

**Business Type:** Self-Certified Small Business

**Company Cage Code:** 8SAT7

**UEI:** EU7AU67HAG84
