

PRESSURE SWITCH WITH SETTING VISUAL SCALE

Do not use in magnetic ambient.
Do not use in water ambient and in presence of drop oil.
Avoid to use with gas and corrosive fluids.

Part Number	thread	Setting range bar
682 1 3 1 1 1	1/8" BSPT (Taper)	1 - 6

Case	Anodized aluminium
Threaded fitting	Brass
Label	Optical polycarbonate
Electrical connection	Connector DIN43650-C int-9,4
Type of contact	Reed SPST NO
Max switch voltage	48V
Max switch current	0,5A
Max switch capacity	10W
Max fluid temperature	60° C
Max Overpressure limit	20 bar
Mech. and electrical working life	10 ⁶
Protection degree	IP40
Tightening torque	15 - 20 Nm
Weight	~ 105 gr
